It's A Mad, Mad, Mad, Mad

The constant change in the world has shaped each of our lives.

This 1982-83 school year started with the death of Princess Grace.

The most controversial event were the constant battles in Beirut, Lebanon.

Yet, there was light with the birth of Prince Richard, Prince Charles and Lady Diana's baby. To continue, as the year went on so did the Trans-Siberian Pipeline.

Though we overcame this year's conflicts and will meet new ones, our outlook remained optimistic.

As we entered the 1982-83 school year, the world was in turmoil, with military conflicts in the Mideast and Central America, while here in the United States, acts of violence and protest were becoming everyday events.

Our President, Ronald Reagan was under pressure from groups protesting "Reagonomics." His decision to send Marines to Beirut also got some resistance.

The airlines had a hard time too. There were several jetliner crashes resulting in the loss of hundreds of lives.

On the better side, E.T. the little fellow who travelled three million light years to visit us, received a hearty welcome.

Reagonomics, while being protested by many, began to revive our faltering economy. And with the newest space shuttle, "Challenger", our space program continued to grow.

Colorado: On a Clear Day,

Colorado possesses many valuable qualities that make it a truly classic environment. The state, sometimes considered a paradise, has seen its share of problems this year. The boom has begun to slow, although we are still ahead of the rest of the country. Tourism proved to be a leading moneymaker this year. The skiing industry anticipated a successful season to make up for the less profitable months of recent years.

During the election of 1982, Colorado voters faced many questions, like whether or not to permit the sale of wine in grocery stores and the forced deposit question. Governor Lamm was also re-elected for a third term.

In the fall, following the Tylenol scare in Chicago, we experienced our own rash of drug-tampering. Visine eye drops found in Grand Junction contained acid, while an Aurora man was hospitalized after taking Excedrin capsules containing mercuric chloride.

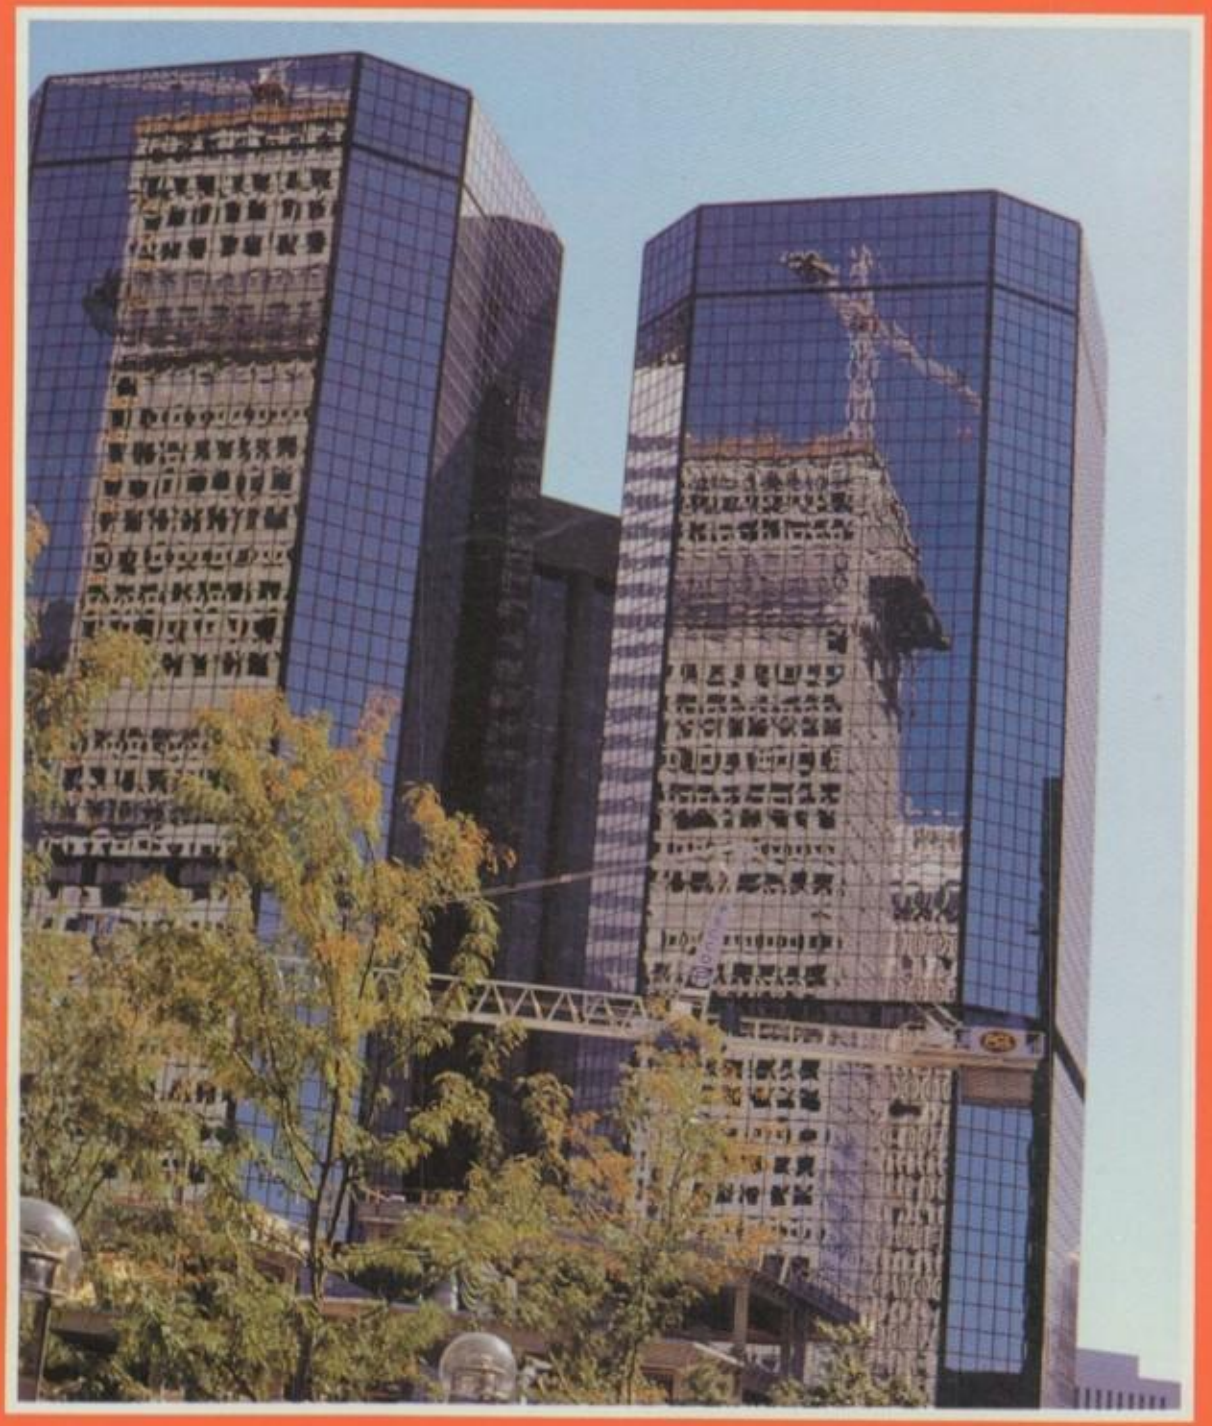
An eventful year for Metro-Denverites



Denver continued its bid to become the fastest growing city in America this year. Downtown, the 16th Street Mall, after millions of dollars in cost overruns, finally opened in October.

The Broncos went on strike causing mass panic for "Orange Crush" fans all over the city. Hundreds of businesses lost many of their customers, especially restaurants who depended on ecstatic football fans to keep doors open.

Last May, Denver said goodbye to our major league hockey team, the Colorado Rockies, after the owner, Peter Gilbert decided he wanted to move it to New Jersey. Gilbert then sold the team to new owners and they became the New Jersey Devils. Hockey did return to Denver this summer when Calgary decided to put its minor league team, the Colorado Flames, into McNichol's Arena to play.

During the summer, thousands of commuters found themselves with no transportation when the RTD bus drivers went out on strike. Many had to resort to extremes just to get to work. In early August, bus service was resumed, but ridership was down.

THE BRONCOS spent their season practicing in Washington Park (top left).

Our Town

The city of Aurora is not only the fastest growing community in Colorado, but it is also one of the fastest growing communities in the United States. A community once known as the boondocks of Denver, is now an established and well respected area. People looking for a comfortable and enjoyable area outside of Denver have caused a great population increase. Because of this increase, Aurora is predicted to be the next large metropolitan area in Colorado.

Aurora's environment provides a variety of activities for its residents. In the last year, the building of the Ramada Renaissance provided people with a luxury hotel for guests, conventions, and banquets. This kind of hotel would normally be located in the Denver area, but now the people of Aurora can have this pleasure without having to travel downtown.

Also, in Aurora, the Cherry Creek Dam provides enjoyable excitement almost year around. People from other parts of Colorado come to enjoy the activities and beauty of the reservoir.

Aurora also provides many activities for high school students. Smoky Hill students have enjoyed the use of the Aurora Athletic Club, the Aurora Mall, and the many theaters and eating places.

Graduation is a sight away, but the class of 1983 has already shown spirit, unity, and organization. On the agenda for this year were the blood drive, the slide show, the senior talent show, and, of course, graduation.

Spirit! That's what S.H.H.S. likes to see. Already the Freshman Class has shown its spirit and togetherness by winning the contest at the first assembly with the famous "Mama" cheer.

The vibrant Sophomore Class strived for potential leadership. They took the lead by giving a Halloween party for local children and working on organizing other activities.

Both classes are striving to make an identity for themselves.

Smoky Hill Presents

Stand by for Action

Rocky Horror Picture Show

Some people might say that October is the time of the year in which a person's true personality comes through. The week of the 4th through the 8th proved to be so.

This week, known as Spirit Week, has been a continual tradition at Smoky Hill during homecoming week. Not only do the students get involved, but also the teachers, secretaries, and the administration.

The week consists of a variety of days such as Beach Bum/Tourist day, toga, anything goes, punk, and red and green day. The halls of Smoky Hill were crowded with costumes of flashers to ancient Romans.

This week not only proved to be a lot of fun, but it also got everyone to work together as a whole.

BANG, BANG! . . . Holli Smith and Denise Sazera show how the west was won (middle row, top).
FLASH! . . . Jim Harlan and Bob Bowers let everyone sneek-a-peek (middle row, center).

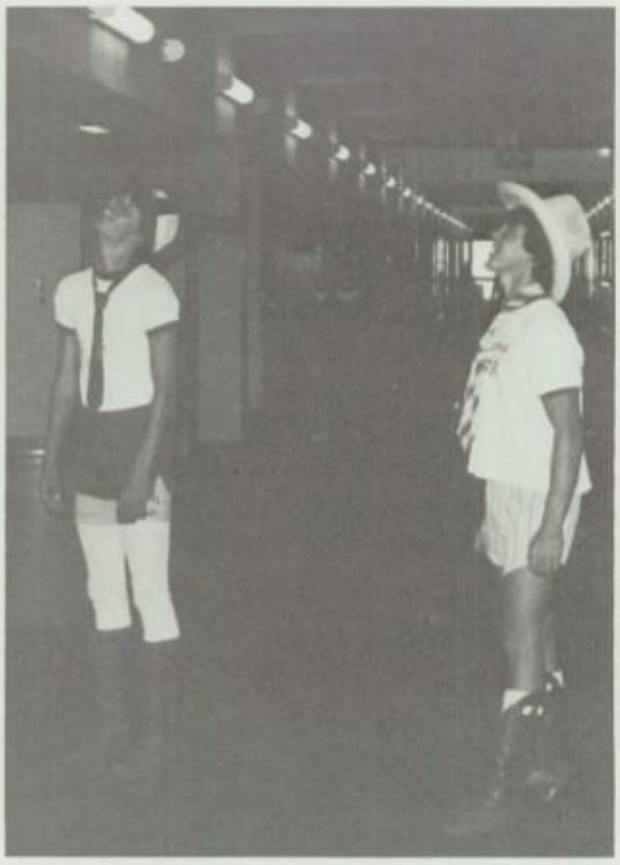
HEY SAILOR! . . . Kris Wells, Tammy Moore, and Cindy Pedersen show what it takes to get the camera's attention (first row, bottom).
THE HATS HAVE IT . . . Tammy Moore, Helen Wall, Cindy Mitchell, and Chris Boris prove that a hat can be worn with anything (second row, bottom).
UP WHERE? . . . Scott Foith and Warren Stenseth show how to dress with class (second row, middle).



The Way We Were

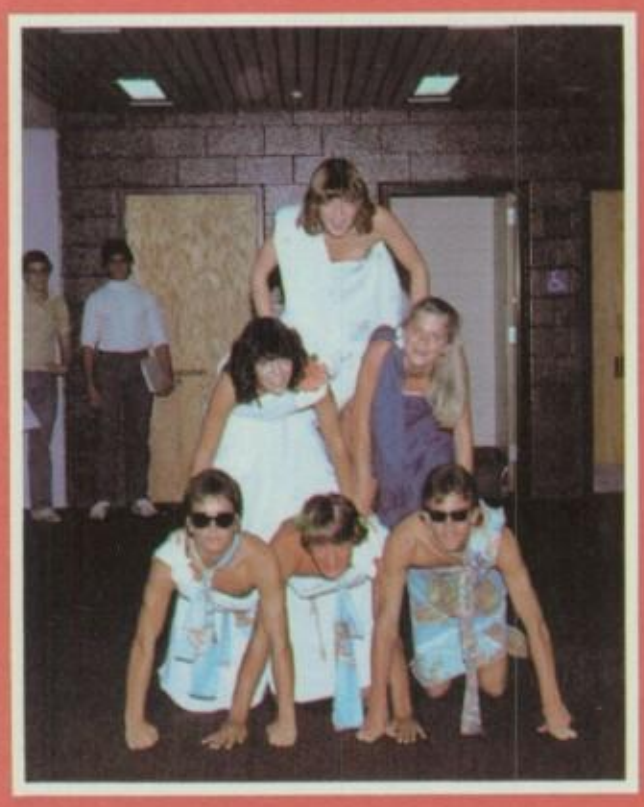
Spirit Week 1982 started out on Monday, October 4, with Beach Bum day. Many people were seen decked out in beach wear such as OP shorts, thongs, long sleeved t-shirts and Vuarnets.

Tuesday was Toga day. There were many variations of the toga look. Some people wore ties and hats; others had cowboy hats and boots.

Wednesday had the school talking. There were flashers, guys in scuba gear, girls in formals and many other outfits you had to see to believe!

Punk day on Thursday was the only day many students participated and even some teachers. Mrs. Cox and Ms. Chamberlin were the talk of the school.

Friday ended spirit week with red and green day and the students undeniably showed that the Buffs have spirit.



HEY! . . . Annette Smith shows that Romans need lockers, too (first column, middle).

DON'T MOVE . . . Beth Hummel, Angie Richendifer, Gretchen Roberts, Scott Freng, Jeff Cox and Jim Harlan build a pyramid (second column, top).

WORKING WOMEN . . . Cindy Mitchell, Tammy Moore, and Chris Boris show businesslike toga's (second column, middle).

Homecoming 1982

The theme of this year's Homecoming Dance was: "Let the Good Times Roll." The decorations were done by the Utopian Club and KBPI emceed the dance.

Students felt that this year's dance was a great success. Senior Barbara Goldberg commented, "The turnout at this dance was the best I've seen. There was a lot of support from all classes which really contributed to the success of it."

The dance was held on the evening of October 9 in Area One and Two at the school. It lasted from seven until eleven that evening. Featured was the traditional Royalty Dance, at which time the King, Queen and attendants were crowned.

The King and Queen for the Senior class of 1982 were Kim Church and York Brogden.

Everyone felt that the dance was very enjoyable and that it was a dance they will all remember.

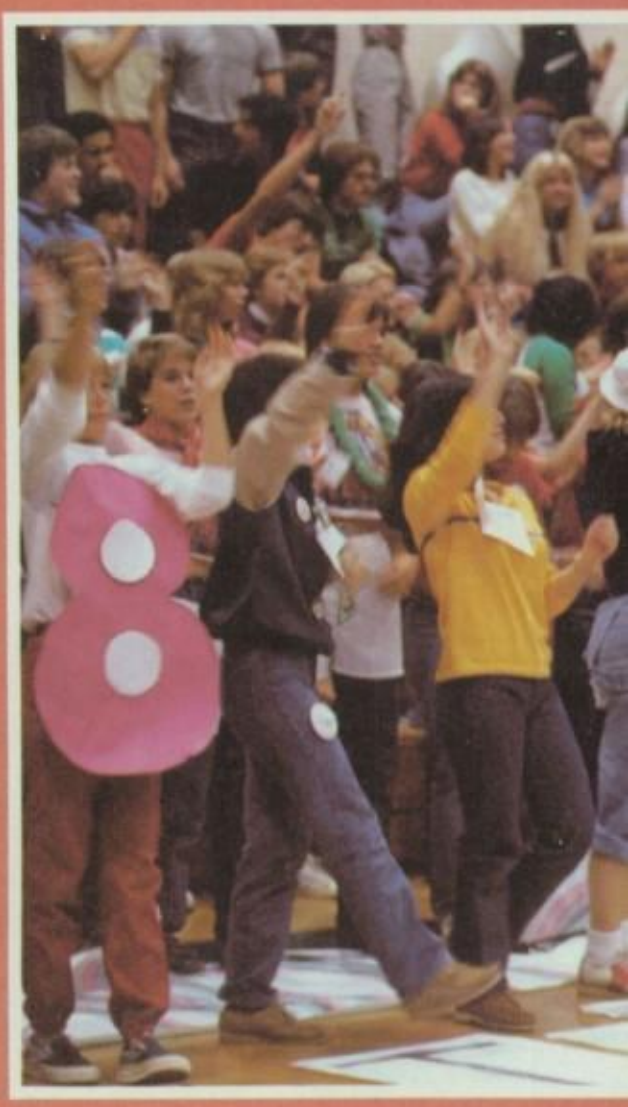
Our Time In The Spotlight

Fast Times at Smoky Hill High



The senior class of 1983 is one of the busiest that Smoky Hill has ever seen. Many are involved in various activities and clubs. This year, the seniors have planned many different things to do.

Nine committees helped carry out these grand ideas. Between designing T-shirts and organizing the blood drive, seniors also found time to participate in many athletics. Other committees included the carnival, reunion, luau, slide show, talent show, fund - raising, and splat. These activities helped to make the seniors' last year one of the best.

One of Smoky Hills most dedicated and hard working students is Gilberto Marcha Jr. Gilbert is a top student in classes such as AP Physics, Calculus, and Chemistry, and still finds time to participate in Marching Band and Jazz 1 where he plays the Alto Saxophone. He has worked hard to achieve recognition as an outstanding senior.

Most of his spare time is spent doing homework, but he takes time out to enjoy such activities as strategy games and reading science fiction. He hopes to attend Colorado School of Mines and major in Chemical Engineering. Gilbert is an outstanding individual and sets an example for all.

York Shows He's a Winner

York Brogden is a winner both on and off the field.

On the field, York has showed impressive athletic ability and versatility by excelling in three sports. During the fall of his junior and senior years, he earned two letters in football, as well as setting four school records.

When winter rolls around York can be found playing hockey. He earned letters in hockey during his freshmen, sophomore, and junior years and was also captain of the team his junior year.

To finish off the year York plays lacrosse. He is a valuable addition to the team as evidenced by his four letters, MVP award his junior year, and being named to the All-State team his sophomore and junior years.

York doesn't let his school work suffer because of his involvement in athletics. He maintains a 'B' average, and takes challenging courses such as AP Physics and Calculus in preparation for college where he plans to study engineering.

York is also involved in Peer Counseling, Utopian club, Student Government, and Yearbook.

Outside of school York likes to relax by skiing or backpacking. He has been to Alaska three times on hiking trips and says that he loves the outdoors. He has also taken an interest in photography and has taken many of the pictures in this yearbook.

Beauty and the Beast

"The best ability a person can have is the ability to laugh at himself." This quote exemplifies John Muldoon's outlook on life. John is an outstanding athlete and student. He has been able to maintain a high G.P.A. along with competing in football and track since he was a freshman. John likes being around people and helping them. He feels that school spirit is very important and he follows this by being the "class clown." John's future plans are to go to CU and major in Engineering.

Another fine student is Heidi Manna. Heidi, the President of the Senior Class, strives for excellence. Before this year, Heidi has been involved in cross-country, track, Utopians, athletic training, and Hill Pride. Now she spends most of her time planning for the Senior Class activities and Peer Counseling. Heidi's future plans are to study Medicine at CU.

Karen Brennan is one of Smoky Hills' busiest seniors. In her sophomore year, she was a welcoming committee member for the NASC/NASAA for the 44th Annual Conference. She was also Vice-President of the sophomore class.

The next year, Karen took first place in the general essay portion of the S.H.H.S. writing contest. She also placed first at the third Annual Morrison/Shafroth prize for extemporaneous speaking. In addition, Karen was a member of the National Honor Society.

During her senior year, she was a member of the American Legion Auxiliary Colorado Columbine Girls' State and she acted as one of Colorado's senators. Karen served as the communications coordinator of student government, and she appeared in *America's Outstanding Names & Faces.* In the National Merit Scholarship Competition, she received a letter of commendation. Jane Jackson, Karen's social studies teacher, said, "To me, Karen is a person who has given a lot to S.H.H.S. in many areas, and, as a result, has gotten a lot out of her years in high school."

Haug gets Involved

Pam Haug has been involved in many facets of Smoky Hill. Much of Pam's time has been taken up with sports. She was co-captain of the volleyball team and lettered in tennis. Being senior class secretary also took up her time. She was also an editor of the yearbook.

With so much of her time being demanded it is quite an accomplishment that Pam has kept up her grades. She has been a member of National Honor Society both her junior and senior years. Pam also received recognition for her outstanding scores on the National Merit Scholastic Qualification Tests.

The future for Pam holds more bright possibilities. She hopes to attend Dennison University in Ohio to pursue a career in aerospace engineering or computer science.

LEADERSHIP . . . Pam helps students in yearbook; just a part of being an editor!

Rhonda Named All American

Rhonda Rape has attended Smoky Hill High School for four years. During these years Rhonda has become famous throughout the state and nation.

She has competed on the swim team since she was a sophomore, and her specialty is setting records. She began swimming when she was eight, setting her first national record when she was 10.

Winning state and national championships is nothing new to Rhonda who gained acceptance to the U.S.A. National Olympic team when she was 15. She was also voted All American three times and named sports woman of the year in 1979. Rhonda holds state records in the 200 individual medley, 100 breaststroke, 100 butterfly and 100 backstroke. Rhonda plans to go to college and major in communication.

She also hopes to participate in the 1984 Olympics in Los Angeles.

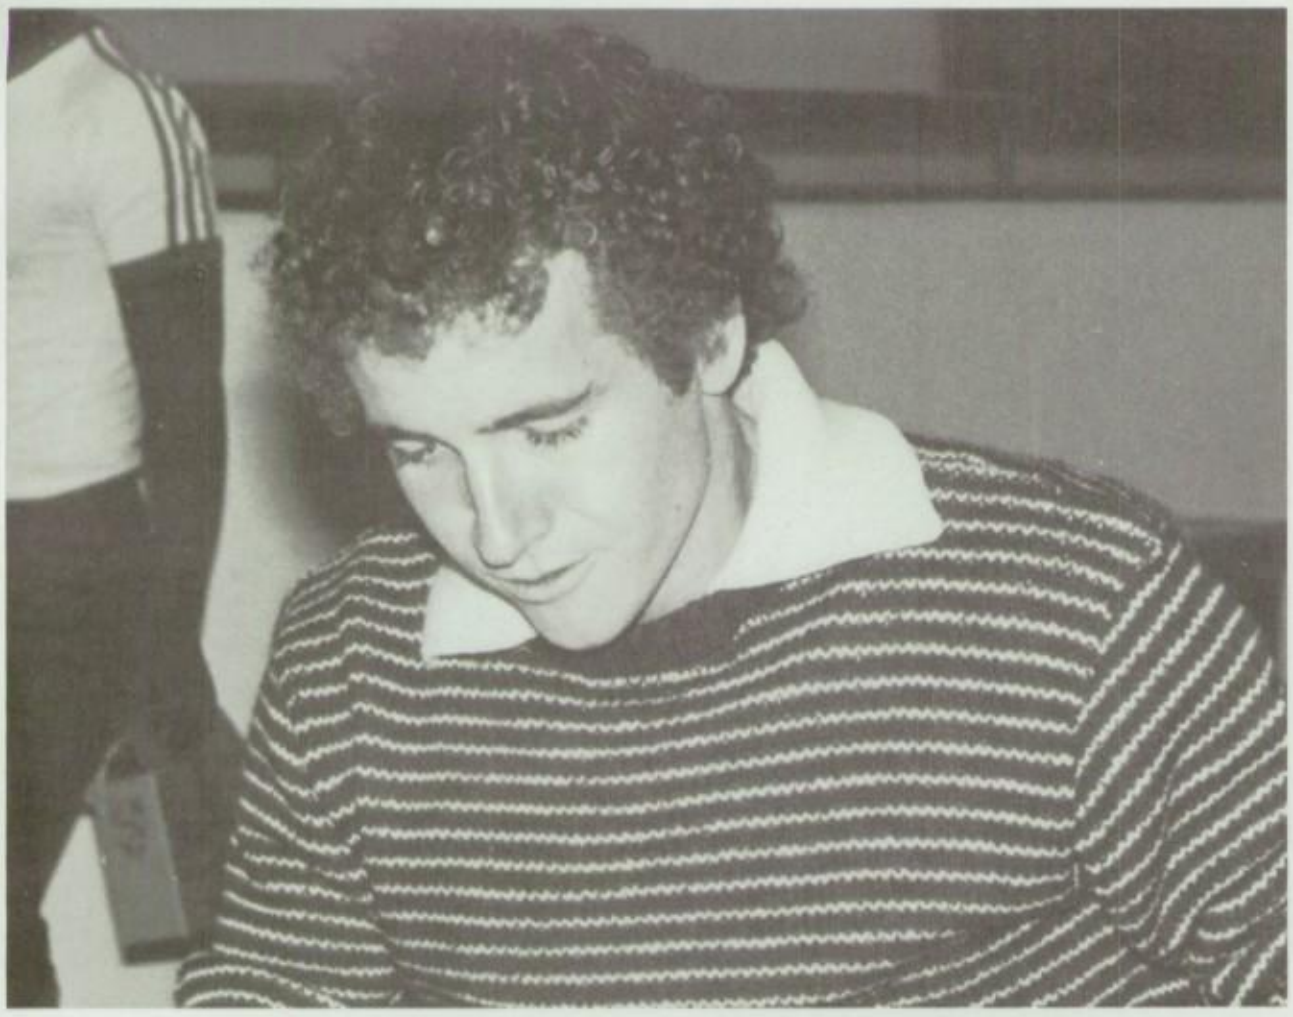
Versatile Mills Adds to Smoky Hill



Mr. Brice said, "Mark Mills is one of the more positive and enthusiastic musicians that I have had the pleasure to work with in 25 years." Mark really enjoyed band, choir and theater.

Mark also was into sports. He was a letterman in track (sophomore and senior years) and tennis (junior and senior years). His senior year, he played number one doubles in tennis.

Mark moved to Smoky Hill in his sophomore year. His first impression of Smoky Hill was that it was huge. He had a hard time finding his way around, but the students helped him feel at home. Mark holds high regards for Smoky Hill and the school district.

Academically Mark is an above average student. His future plans are to major in electronics. He would like to attend a college in Colorado.

Kim Church: Super Student

Kim Church was recognized as one of Smoky Hill's top achievers. When Kim was asked who she is, she responded by saying, "I'm basically an average person - I love to be involved in school, both in activities and academics." Kim was involved in all different activities including volleyball, basketball, soccer, band, NHS, Utopians, Peer Counseling, Student Government, and Mu Alpha Theta.

Kim's best memories of Smoky Hill were: "My relationships with friends and teachers have been the most valuable part of my high school career." Kim plans on going to college either in New England or the West Coast to study science or math related fields.

Mike Nelson shows Dedication . . .

MIKE NELSON studies hard for a test. Mike lines up for attack against Central.

Hardworking, dedicated Mike Nelson is one of Smoky Hill's top seniors. To Coach Bob Heister, Mike is a person of versatility and persistance.

Coach Heister has worked with Mike on a few things such as Alpine Odyssey and Dry Creek; plus he has seen Mike working as a Peer Counselor. "He has drive and ambition, which helps him get along with students, as well as his football teammates," Heister said.

"Mike has superior performance on the football field, putting extra effort into every play. He had a 6.4 yard average per game, with a total of 98 carries," said Heister.

Mike had the most receptions in a single game (seven) while playing the positions of left halfback (offense) and safety (defense).

Mike's plans after graduating are to go to college with a scholarship, play football, and major in business communications.

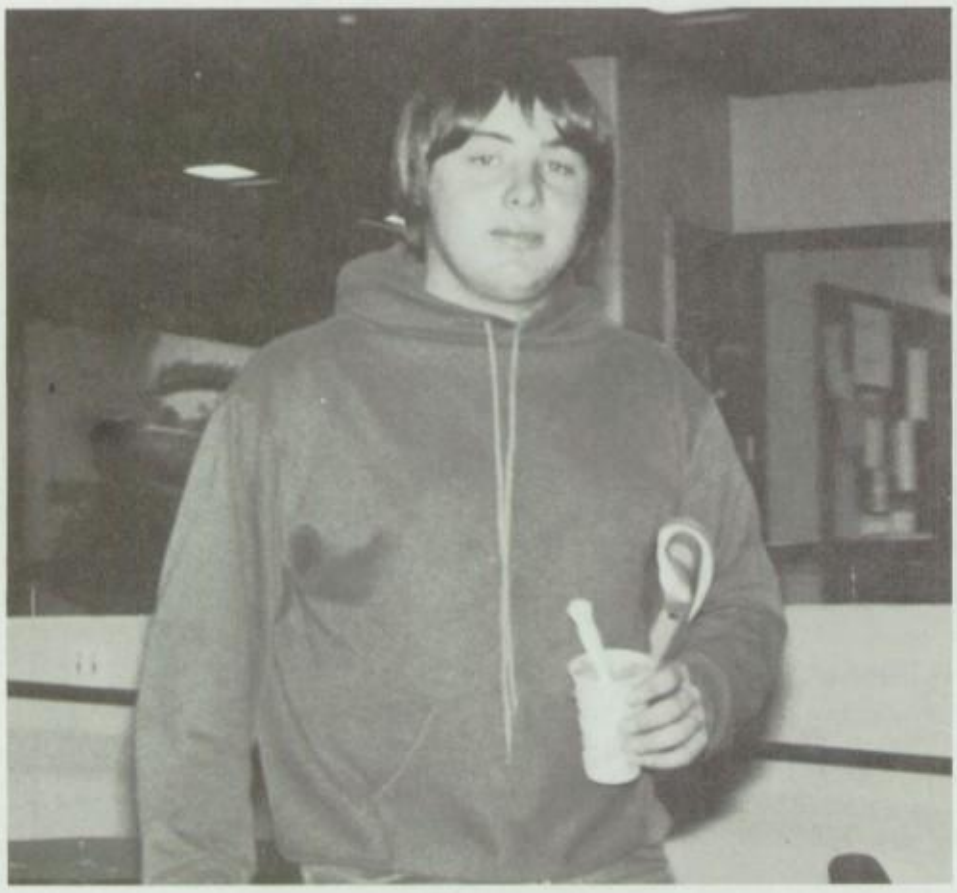
A Totally Awesome Student



Chuck Mumey is a person who can truly be called a great student. Friends of his say, "If you were in serious trouble, Chuck would be first in line to give you a hand." Chuck has a great interest in all aspects of science. He has especially excelled in the natural sciences and plans to study for a geologist's degree after graduation.

Chuck's athletic abilities have also helped him excel in sports such as hockey. His center play has attracted much attention. Chuck has also been involved in football and lacrosse during his four years at Smoky Hill.

Chuck's warm personality makes him one of the most liked people in our school.

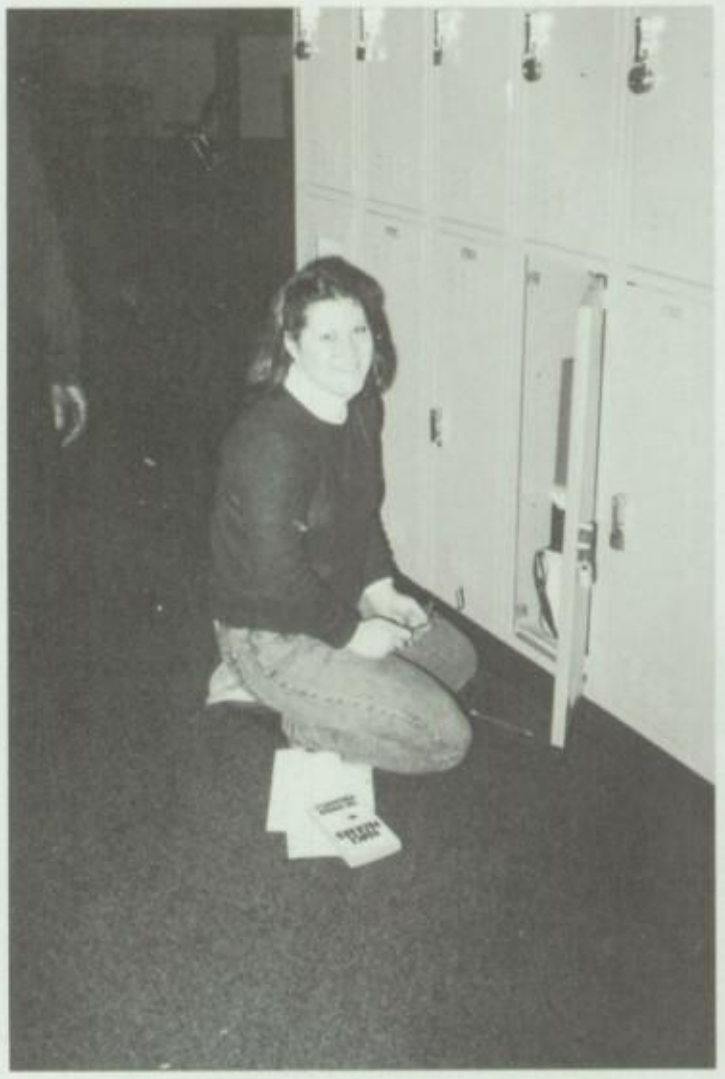
Kenda Sets Example



Kenda McCall has been chosen as one of twenty-five outstanding seniors. This honor is a well deserved one for Kenda. Besides maintaining a high G.P.A., she was the Vice-President of the National Honor Society. She has been a member of Key Club, Hill Pride, French Club (treasurer her sophomore year), and of the newspaper staff. Kenda was also a semi-finalist for the National Merit Scholarship Award. In the four years she has attended Smoky Hill, Kenda has been one of the school's best examples of the kind of student that graduate from Smoky Hill.

Mike Seeburg has contributed much to the senior class in the form of art. For one, he is the designer of this year's senior class t-shirts. His artwork can be found in the main office, in the art room and even in this yearbook. Although, Mike's largest contribution is in the form of art, he has other interests. He has been on both the cross country and track teams. His plans are in the field of commerical art.

John Norgord was another standout as a senior. He was also a member of the cross country and track teams. John is involved in other parts of Smoky Hill too. He is an active member of the choir and he is a staff member of the school newspaper *Express.* John can also be recognized as a peer counselor. His future plans are to attend Metro State College and pursue a career involved in human services.

Diversified Athlete and Student

Smoky Hill has many great athletes, and Amy Whitney is distinguished in the group. Cross Country, soccer, track, and swimming are only a few of the sports that she has participated in. Even though she has lettered in them all, soccer seems to be her favorite.

When not in school, Amy enjoys listening to New Wave music. Some of her favorites include Missing Persons, The Clash, and the DK's. Besides listening to her music, she likes to spend time with her sister Carol. "My sister is like a best friend. We seem to get along great."

Amy is an excellent student as well. She is an excellent writer and is taking many challenging classes. She has written for the Smoky Hill Express during 1982-83.

Howe and Charlton - Good Athletes and Students

Nothing but the best - two of Smoky Hill's top students are Liz Charlton and Amy Howe. They are not only at the top of their class for academics, but also for sports. Amy is best known for her tennis abilities, but also as a basketball and volleyball player. She has lettered all four years in tennis.

Liz, on the other hand, is known for volleyball and as a sophomore, was the starting setter, which is normally done by upperclassmen. She has lettered all three years. Liz is also a soccer player and a member of the Marching Band. When talking to Mrs. Brown, she commented, "Liz is the best competitor I've ever had."

Both plan to attend college.

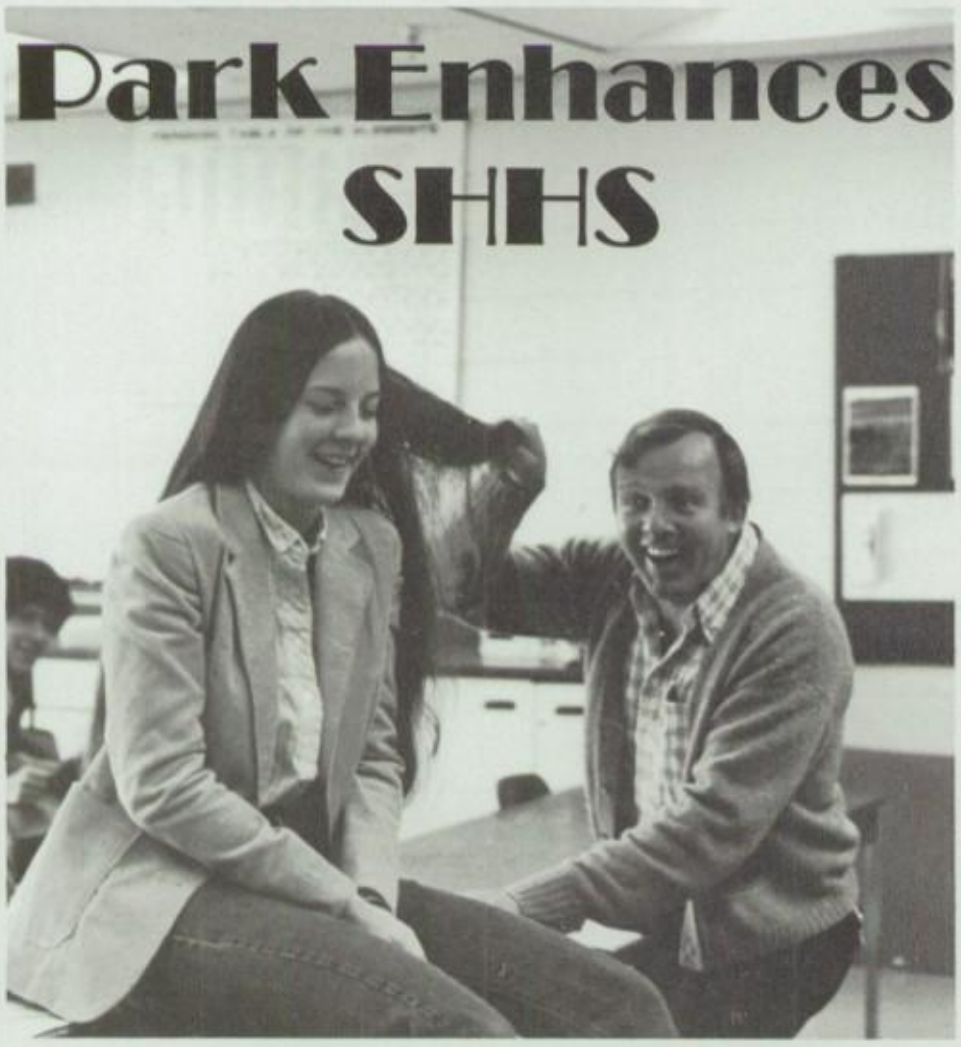
Park Enhances SHHS



Tricia Park has been an outstanding student at Smoky Hill, over these past four years. She has participated in many activities, including many choir classes. Tricia has also been active in Key Club, being Vice-President her junior and senior year. She has been involved with the School Climate Improvement Committee and has been in National Honor Society. This year she has been an Athletic Trainer.

In her spare time she enjoys vocal music and poetry. Tricia credits Mr. Kittle with helping her turn her emotions into a colorful art.

This past summer she was a runner up in the Miss United State Teenager Pageant.

Tricia plans to enter college as a pre-med student.

Hart Challenges The Impossible

Darren Hart is recognized as one of Smoky Hills' outstanding seniors. He has been involved in many challenging courses, including A.P. Calculus and Physics. He also has shown talent in sports such as soccer, lacrosse and wrestling.

Darren was an active member of Peer Counseling. He likes getting to know people and helping them with their problems.

When Darren isn't busy with his other activities, he enjoys skiing, scuba diving and watching Rocky Horror.

Darren is still open-minded about his future plans, but is considering becoming a wine master!

Two of Smoky Hill's favorite female peer counselors are Annette Smith and Linda Wilhelm. They are among the most personable and friendly people in the halls of Smoky Hill.

Mr. Fox, Linda's physics teacher, said, "She is a very enthusiastic student who enjoys getting the job done, but she isn't a gloryhog." Linda has also been involved in Key Club and Student Government during her years at Smoky Hill.

Annette's Spanish teacher, Mrs. Kaplan stated, "Annette is a student leader who her peers look up to." She was also the president of the Utopian Club during her senior year.

Annette and Linda went on a Peer Counseling retreat in August. They met some new people and saw new places. Both agree it was one of the high points of their senior year.

The Making Of a Classic

Smoky Hill Presents

Lights, Camera, Action

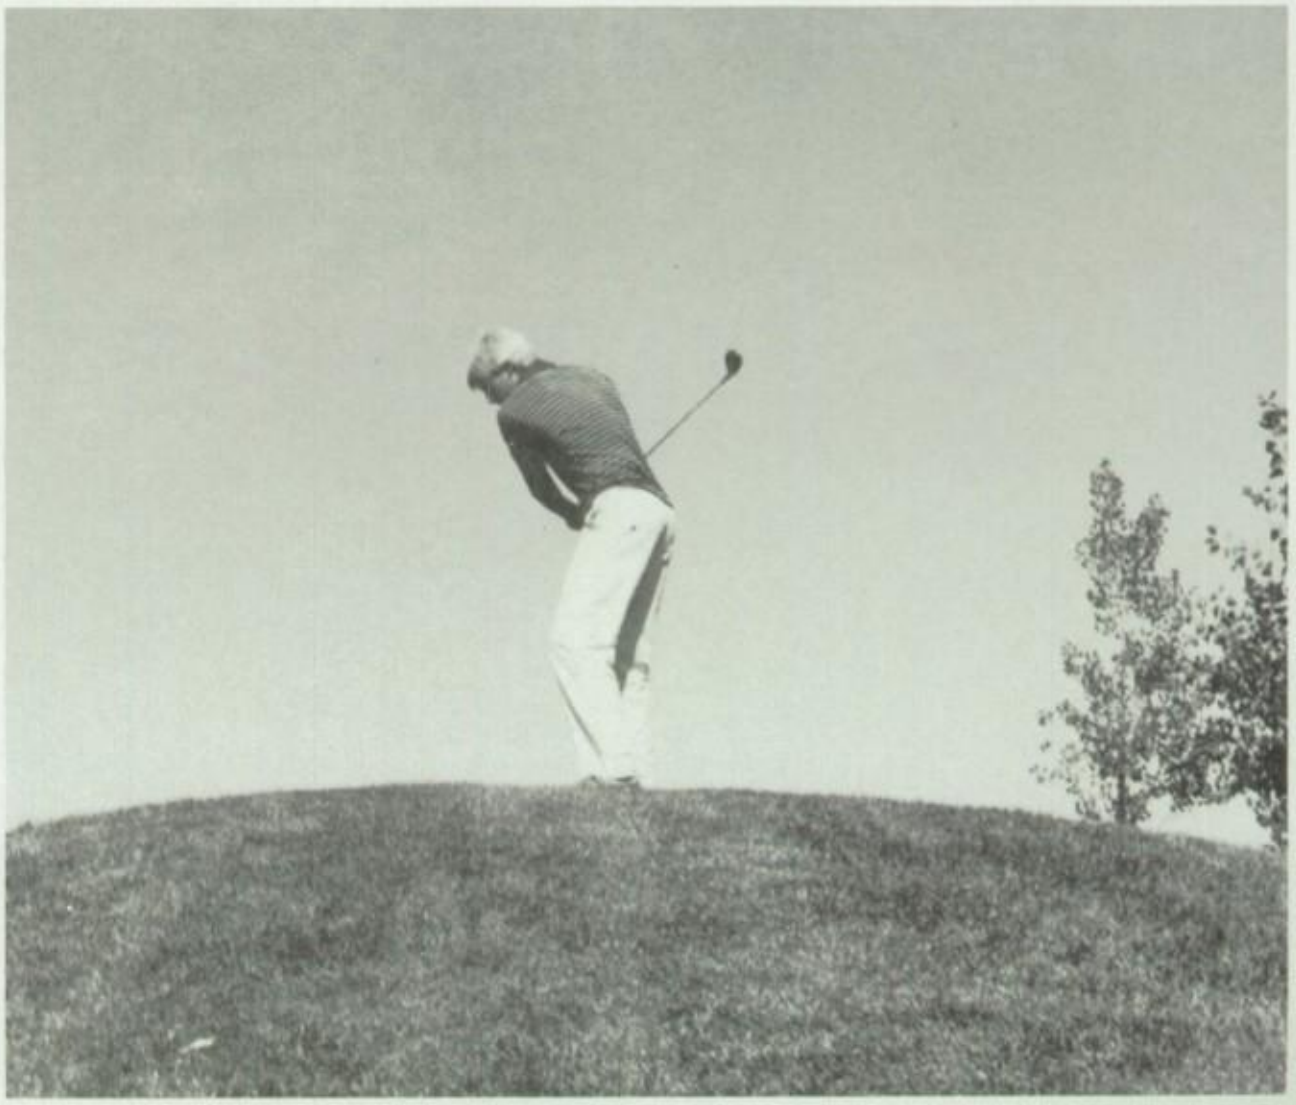
Caddyshack

Overall the golf team had a pretty good season in 1982, even though the team did not do well at district only placing 10th.

Kirk Cavarra was the best golfer on the team this year and will be returning next year, along with four of the other top six golfers. The only varsity golfer not returning next year is senior Dave Faddis.

Over the season the team showed good improvement, averaging four to five strokes less at the end of the season compared to the beginning.

Looking ahead to next year it appears that the team will be basically the same with almost all the varsity returning.



TOP PERFORMER . . . Kirk Cavarra takes another perfect swing.

The Longest Yard

The 82 - 83 season was an excellent year for some individual players with many new records set. The year wasn't as successful for the football team as a whole. Smoky Hill ended the year with a 4-6 record, four of the losses coming at the close of the season.

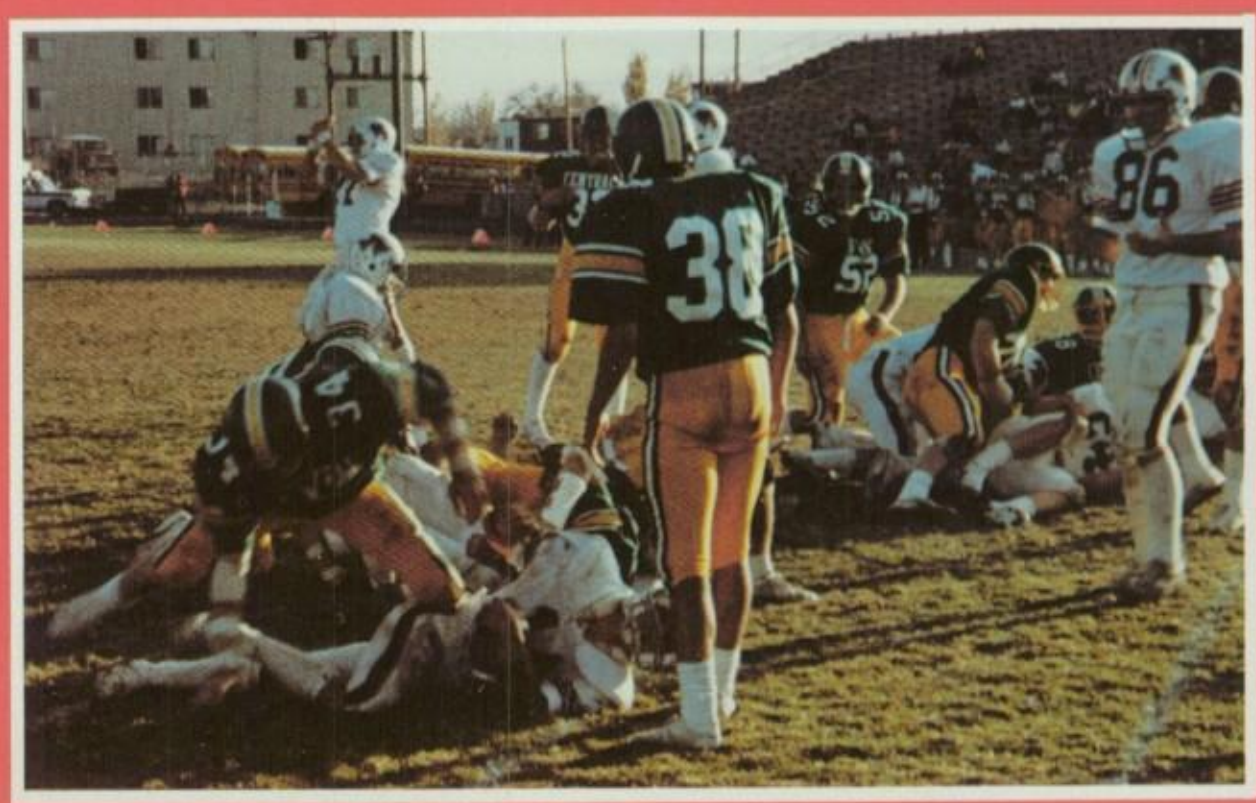
One of the exceptional players was York Brogden. He set a new school record for touchdowns (12) and points scored (74 points). He also led in receiving yardage with 396 yards, 94 of those coming on a touchdown pass from Darren Monroe against Hinkley (school record).

Another outstanding player was Mike Nelson. He had the most catches for a game (7) and the season (23). Nelson had a total of 28 points for the season, followed by Karl Scott with 28, and Greg Wilson with 25. Rushing was also dominated by Nelson. He had 98 carries for 628 yards, an average of 6.4 yards per carry. Karl Scott had a total of 596 yards with 102 carries. Other than Mike Nelson, Jim Vavra had a good year with 16 catches for a total of 254 yards, Wally Pierce followed with 16 for 182 yards.

More records were set by quarter back Darren Monroe. Monroe holds records for most attempted passes in a game (30) and for the season (182). Also for most completions in a game (15) and in a season (79); and most yards in a season (1,199).

Smoky Hill had big victories against Boulder, Littleton, and Overland. We also had our share of surprising and disappointing losses against Fairview and Gateway. Assistant coach Luhring felt "We did a good job, never gave up."

Head coach Bob Hiester is looking forward to a successful and winning year for the 83-84 football season.



HARDWORK but some frustration marked Smoky Hill's 1982 football season. Wally Pierce hustles . . . Mike Nelson scores against Central. York Brogden streaks for a touchdown (opposite page). Buffs Run Like Chariots Of Fire

The boys' cross country team had an extremely successful year. They started the season off with a bang at Dekovend park placing only second out of 26 teams. Only a week later they swept the Aurora City Championships by placing all the scoring members (top five) in the top seven places. Their finishing order was as follows: Jim McPhilomy (3rd, All city), Craig Martin (4th, All City), Mike Seeberg (5th, All City), Jim Harlan (6th, All City), John Norgord (7th, All City). The team had a historic moment when they won the Smoky Hill Invitational, for they had never won this meet before. Furthermore, the top seven ranked teams in the state were there. After their victory the next week at the Alameda Invitational they were off to the Centennial League Cross Country Championships. Because of awesome finishes by Mike Seeberg (3rd All Conference), and Jim McPhilomy (4th, All Conference), the harriers became the 1982 Centennial League Champions.

Top row: Craig Martin, Mike Seeberg, John Norgord, Dan Peterson, Rob Osborne, Bill Cooper, Chris Reed, James McPhilomy, and Jim Harlan.

WINNING ... Anji Weaver stays with a Rebel runner.

COMPETITION ... Lady Buff runners fight for position.

The Smoky Hill girls cross country team had a highly rewarding season. They placed at least in the top five of all teams at seven out of the eight major invitationals where it was common for two to five teams to be running. Cross Country is the only sport at Smoky Hill where both girls and boys scores are combined. The Aurora City Championships was where this unique scoring system was used. It was a particularly happy year for Smoky Hill at the Aurora City Championships because not only did the boys win their race, the girls wiped the field also, to a first place victory. With the combined wins of the girls and boys teams Smoky Hill became the Aurora City Champions in Cross Country. The girls finished their season with a fifth place finish at the Centennial League Championships.

Sophomore Lori Fitzgerald led the Buffs with All League and All City honors. Coach Mike Renes summed her up by saying, "Lori was a team leader, she didn't obtain this status by bossing anyone around but by setting examples."

Junior Anji Weaver, "improved greatly and boosted team morale with her positive attitude," Kim Haas "Was a hard worker and provided the team with depth," said Renes. He went on to say, "Amy Whitney and Toni Huggins (seniors) provided key performances." The girls team not only was outstanding on the field, but with a combined grade point average of 3.7 the girls showed their scholastic ability as well!

Volleyball Buffs Strive to Reach their Personal Best

Although Smoky Hill's volleyball team was not as successful as in past years, the girls gained much valuable experience and training. The win-loss record doesn't adequately describe the successes of the season. The Buffs played well, but lost many close games that should have been won.

The team participated in several tournaments and played well. A young team, the Buffs had only four seniors, but gained invaluable varsity experience which will be greatly used in the future. Led by co-MVPs Liz Charlton and Pam Haug; most improved, Darcy Hawkinson; and most spirited, Beth Ahl; the team finished respectably in the league.

The future looks bright. A large number of freshmen and sophomores were involved in the program this year. The freshman team finished first in its league tournament, beating St. Mary's and Cherry Creek. Much young talent was found. To compensate for the large increase in players, an additional team was added. The new team was coached by Tony Craven.

Future success of the girls' volleyball team will largely depend on these young players.

The season was ended with a scrimmage against both the teachers and the varsity football team.

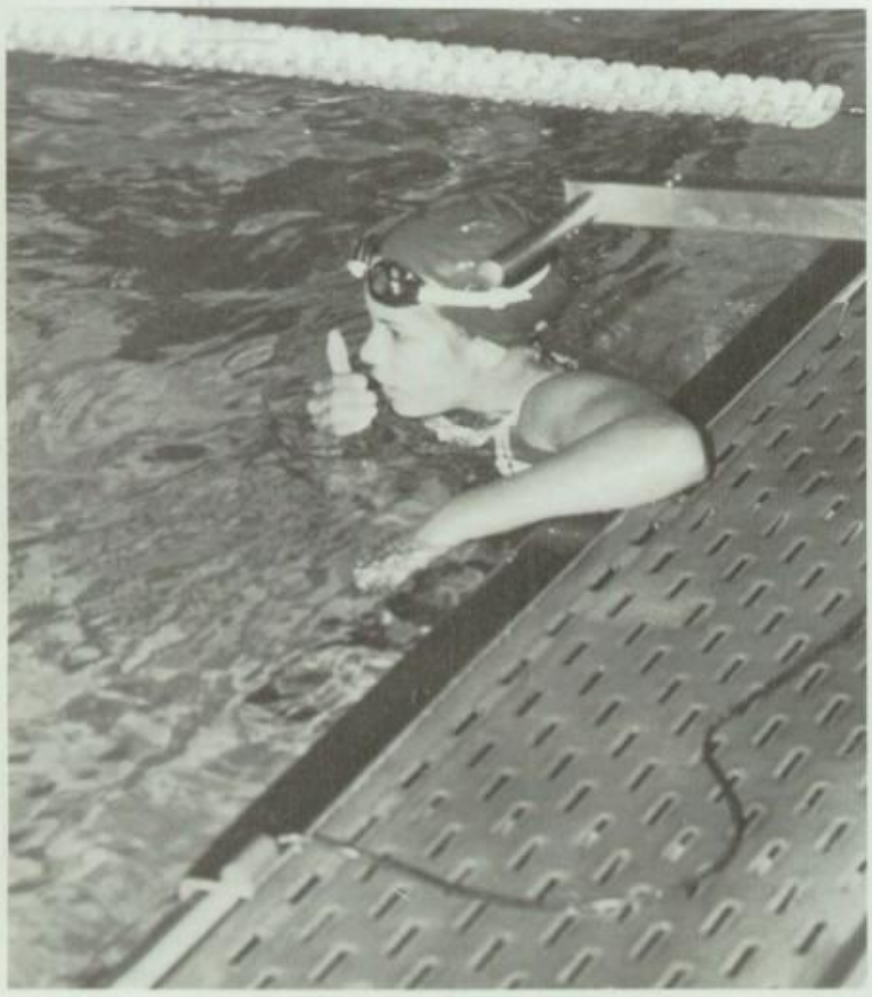
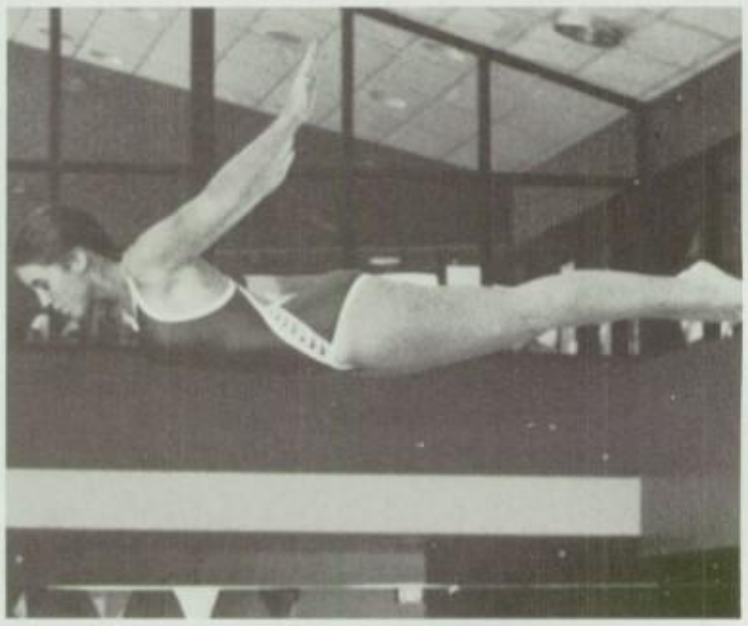
Improvement for The Deep



RECOVERY ... Shari Clark takes a break after warm-up. AWARDS ... Smoky Hill displays their awards at the Aurora City Championships.

The 1982 Smoky Hill girls' swim team was a considerable improvement from years past. The major factor contributing to their success was the new coaching style of John Patterson. Consequently, a new kind of spirit and camaraderie was felt by all. John took the team to a twelfth place in the state meet. Rhonda Rape had an impressive season and finished it off by setting new records by winning the 100 yard breaststroke and the 200 yard Individual Medley. Smoky Hill had nine swimmers in this year's state meet as compared to only four the previous year. Although the team's win-loss record was not outstanding, the losses occurred in the very last race of the meets. Smoky Hill came within points of almost all of their competition. Much more can be expected from the swim team in the future.

SPIRIT ... All-American, Rhonda Rape shows her enthusiasm for swimming.



Front row: Lora Dahl, Bridget Mumey, Kristen Davenport, Jeannie Griffin, Jenny Adamson, and Julie Asfahl. Second row: Tammy Hanna, Michelle Farrell, Lori Traeber, Sue Tubutis, Sheryl Pomplun, Kristen Kopley, Shari Clark, and Alicia Kramer. Tammy Moore exhibits her style as a diver.

Love at First Bite

The tennis season was one of many problems. Offsetting all the problems there were a few good times. For example, in the Douglas County and Hinkley matches Smoky Hill emerged victorious.

Normally, there is more than one problem that brings down a team. This holds true for Smoky Hill teams. The head coach, Dave Whiskeyman, said, "One of the problems is that the coaches were inexperienced." Also, the teams lacked discipline and confidence.

The teams reply to these problems was that the team could use better equipment, and for the courts they could use a windscreen.

Tod Bowman also noted, "There was not enough school spirit this year."

The coaches have a positive outlook for next year. They want the teams to have more matches between themselves.

The coaches in turn will do their best to improve as well.

FREEZE . . . (Top right) Greg Fraikor flaunts his stuff. DEDICATED . . . Dave Whiskeyman, new coach, has more to worry about than tennis.

The Buffs played a rough, frustrating but exciting season. We came in 8th place due to five losses by one goal! Had we won those five games, we would have been in second place.

The people on the first team who received All League were Chad Smart and Kevin Haas. Antonio Girona, who is on the second team, also got All League. There were several people who received Honorable Mention Joel DiPasqualucci, Rob Haynes, Dan Mootz, Andy Schauer, and Jim Stringfellow. Although the Buffs did not get the recognition that they deserved, they were a team that was hard to beat.

Gymnastics ... Rollover

The Smoky Hill gymnastics team did a fine job representing the school this year. At the beginning of the season the team was scoring in the high eighties and ninties, and by the end of the season the team had scored 127.80 in the league meet.

This year's team consisted of four seniors, four juniors, two sophomores and two freshmen. The team participated in all events (the team's top scoring events were vault and floor exercise) and went to Tri-Meets with other Centennial League schools, Centennial League Meet and District five State Qualifying Meet. They also participated in dual meets with non-Centennial League schools.

Awarded to team members was Most Valuable, Jeni Adamson; Most Improved, Tonya Yoshioka; Spectacular Senior, Jeanette Smith; Jumpingest Junior, Robin Simpson and Beth Bagwell; Super Sophomore, Tonya Yoshioka and Rookie of the Year, Jeni Adamson.

The team put in many hours of practice preparing for the season including a two week summer camp which ran a four hour a day practice, and another two and a half-to-three hours a day Monday through Friday and some Saturdays during August and September. Coach Geri Durbin said, "We had a fun season! The team was very enthusiastic."

The Champ

Dick Cozza's Runnin' Buffs captured the Co-Championship of the Centennial League, along with Aurora Central, and gained a spot in the Colorado State Tournament for the third consecutive year in 1983. Led by the strong front line of Kris Terrel, Wally Pierce and Shawn Juister, the Buffs fought off power outages and opponents' stalling tactics to gain a fine 17-4 record and the second seed in the state tournament. The Buffs topped a stubborn Grand Junction team in the first round of the tournament before dropping a tough one to Denver's George Washington High School at McNichols Sports Arena. Guards Kevin Haas and Chris Pedersen were spark-plugs all year in the well-balanced Smoky Hill attack. Haas was considered one of the top point guards in the whole state, while Pedersen gained the respect of teams with his deadly outside shooting.

Senior Herbie Jackson and junior Tony Faust were keys to the Buffs' bench and junior Don Hansen added some much needed depth as the year progressed. Smoky Hill was a rarity as freshmen Robbie Osborne and Ben Miller saw a lot of playing time, particularly in the sub-district tournament.

Smoky Hill fans will remember 1983 as a year of excitement as they look back on the two Aurora Central games, the two Cherry Creek games, the season finale at Heritage . . . and, of course, the trip to the state!

This year was a year of hard work, effort, and most of all, improvement for the Smoky Hill Girls Varsity Basketball Team. It was a year that could not be judged by a win-loss record, but by something more important: desire and determination.

Varsity Coach Rich Benson noted that the main problem on this year's team was that out of the nine varsity players, six were new to Smoky Hill. Due to this fact, it took most of the year to learn the offense and defense. Another factor that contributed to the team record was the fact the team was small in size. Most of the Centennial League schools at least have a tall or powerful center, Smoky Hill did not.

Coach Benson also stated that a lot of good things came out of the season despite its record. A lot of talent came from the team and he says by next season, the team should be developed to almost its full potential. At the end of this season, the statistics were on a continual uprise. Also, there were no seniors on the team and therefore, the starting five will return next year. Benson has his confidence in Captain Lori Smith, and players Carrie Johnson and Pam Parnell.

This year was a year to learn and experience, and hopes for a successful season next year are already in the thoughts of the coaches and players.

The Poseidon Adventure

The water buffs experienced a rebuilding year the past season, with only one senior, Bill Anderson, returning. The buffs were thought to be a weak team, but later suprised the league with their success.

Coach Mike Renes said, "Coming up are some outstanding freshmen and sophomores. Smoky Hill will be looking at a very strong team in a couple of years. Paul Colantuno, Chad Lucero, Bill Woodward, Joe Rockwell, and Dan Fernandez were the major point winners this year. They were backed up by a team with a lot of depth."

Paul Colantuno came out on top of the 200 freestyle, winning the championship at the City meet. Qualifying for the state meet were Chad Lucero (Diving) and Dan Fernandez (200 IM, 100 yd. breast stroke).

The Buffs had a surprisingly good year, closing out the season with 6 wins and 5 losses. We expect many good performances to take place next year with a more experienced team.

Who are Wrestlers? "They are men who are taught to sacrifice, and work hard to be victorious. These guys have to be mentally tough as well as physically. They must have the agility of a gymnast and the strength of a power lifter. They come in all shapes and sizes, but must be in top condition too. Every match is an individual combat that they must win, there is no place to hide when you lose. A great wrestler also has the 'Eye of a Tiger' and the heart of a Lion," coach Larry Jackel said.

Leaders like Chuck "King Kool Kut," Austin weighing in at 155 pounds and Dave Faddis at 126 pounds led the varsity to a competitive season. The underclassmen Buffs were 11-0 in their dual meets and won the Centennial League Championship proving the great potential of Smoky Hill wrestling.

What an incredible season the girls and boys diving teams had! There was a state record set by Chad Lucero. He received a 313 on a 1 meter board and was ranked 1st in the State. He also placed 2nd in the City meet with a zero dive. Chad won all the dual meets, just as Cindy Mitchell had in the girls' season. Cindy also took 1st in the City meet.

Tammy Moore had an excellent season, winning against our rival school, Cherry Creek, and taking 4th in the City meet.

All divers were exceptional and added to the total team score of the swim team.

Pumping Iron

Smoky Hill's weight program improved greatly over the year with the opening of the new weightlifting room and the formation of a weightlifting club.

The weightlifting club officers were President, Bob Damashek; Secretaries, Libby Watt and Lynn Legg; and Publicity Co-Chairmen, Marty Farris and Scott Doty.

The club members' main objectives were to have a good time and they certainly accomplished that with the numerous parties, weightlifting meets, and other events that were held. One of the biggest events of the year, which was required of all members, was the liftathon that netted several hundred dollars for the club.

The club had no identity crisis because most of the members had "Smoky Hill Power Club" T-shirts which they wore to meets and just about everywhere else they went.

In competition the club was tough. They won their first interschool benchpress contest, and rewrote the school record books over the course of the year.

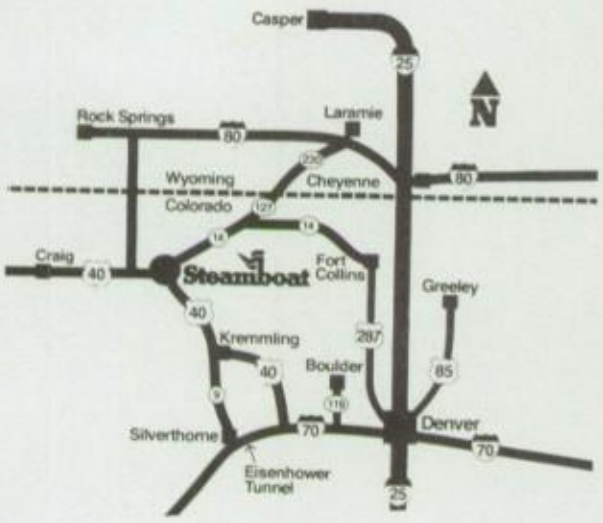
Snow! Just think of all the snow from the '82 blizzard. Well, Ski Club took care of the snow with their weekend trips to Winter Park. They also took a trip to Steamboat Springs over Mid-Winter break and had a blast! Mr. Renes was in charge of all the trips and enjoyed skiing with the kids.

Hey - if you weren't involved with Ski Club this year - what about next year?

Lft-Rt. Leslie Syas, Jenny Gulberg, Lori Strohl, Jackie Johnson, Danny Martinez, Nicole Grelle.



Whew! Mr. Cooper rests while waiting for some kids. Last run! Smoky Bear students are taking their last lift to the top.

M*A*S*H*

The Smoky Hill training room is a place for the athletes to seek attention when they need it. Physical therapist Mike Kerna is Mr. Morrisey's assistant trainer. Both trainers are very knowledgeable and carry their knowledge on to their student trainers. All 14 students trainers are able to handle most any situation at a sporting event.

The trainers not only treat injuries but they help rehabilitate the athlete. The training room is equipped with an orthontron machine which works on the legs to bring them back to full strength. Mr. Morrisey recently bought a workout bike for the weightroom for people who can't run but need a good work out on their legs.

The program is so good that colleges are offering scholarships to senior trainers. Richard Quincy, who graduated last year, is now at Colorado College. Even as a freshman, he travels with some of the sports teams. "The training program is a very worthwhile program."

CARE . . . Even the little things matter - Tricia Park tapes Darlene McLouglin's fingers (opposite). STRAIN . . . Cheerleaders ...

The Smoky Hill Cheerleaders did a great job this year in representing our school and raising spirit.

The one, and only, Varsity squad participated in many competitions, and performed excellently in all. These competitions included the Arapahoe County Fair, where they took 3rd place, and an Excellent at the Columbine Cheerleading competition. They also received many Excellent and Superior Awards including the Spirit Stick given to the most spirited squad at the summer camp they attended.

The squad put in a lot of time and effort preparing for the Fall Sports Season. They not only raised spirit at the games, but also helped get the team and crowd psyched at pep-assemblies. Even in the cold weather, the cheerleaders could be seen down on the track cheering our teams on. Thanks for a great job, girls!

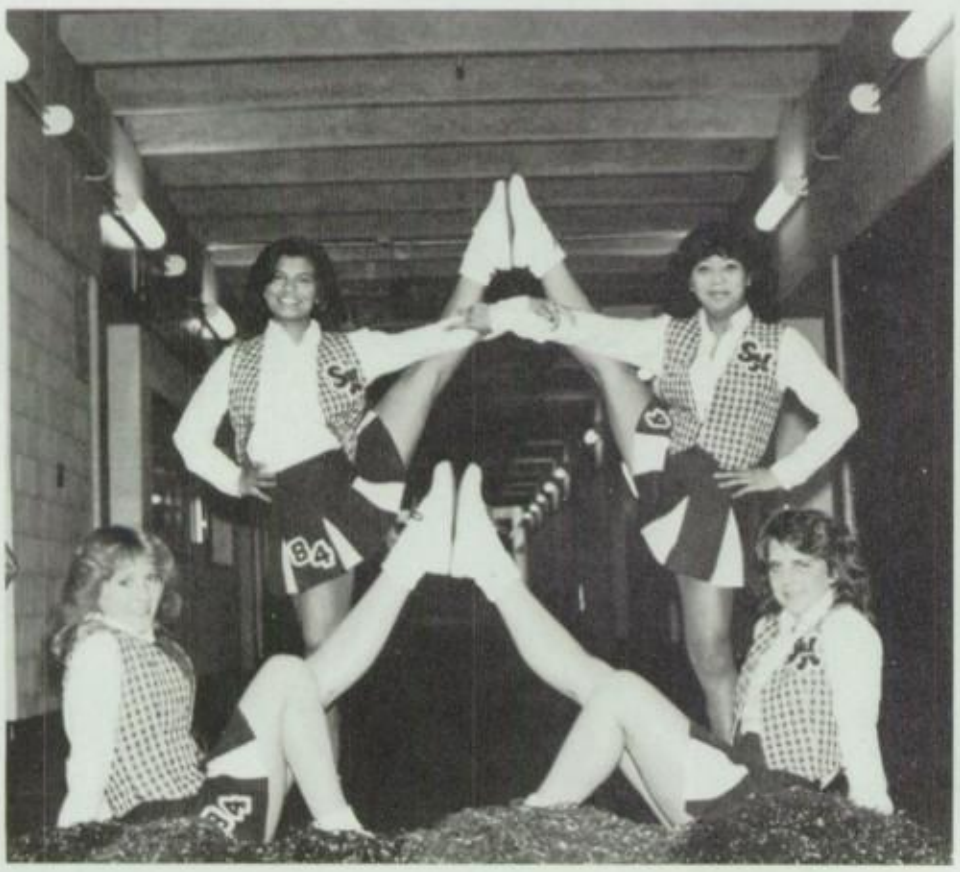
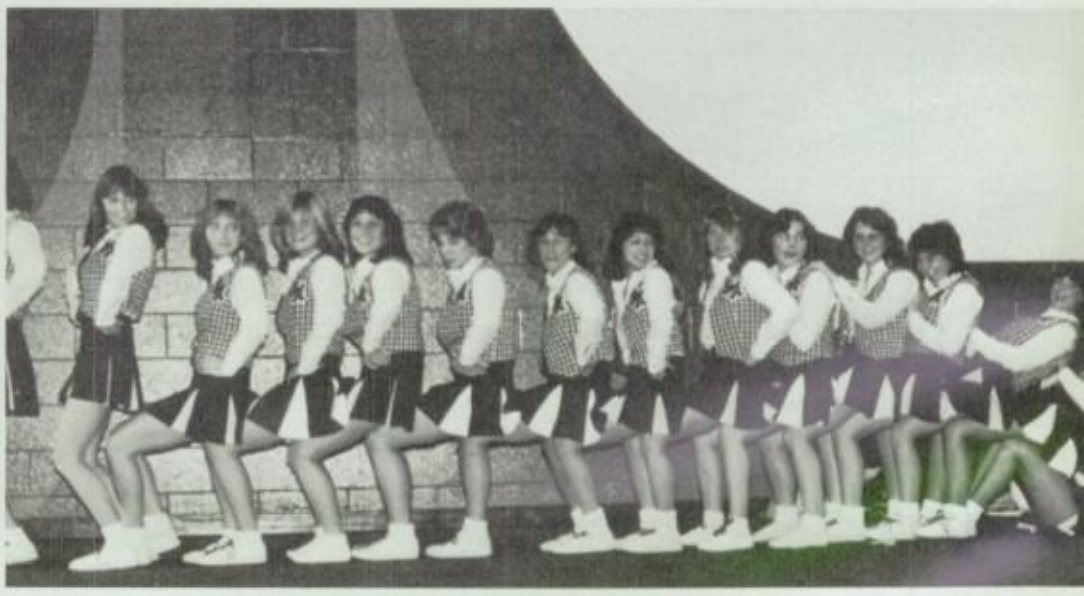
My Fair Lady

A pom pon girl is always thought of as glamorous, but it takes a lot to achieve that glamor. To be able to give such great performances, the pom pon squad practices one and a half hours after school everyday and sometimes at night and Saturdays. The practices aren't fun and games either. A lot of hard work goes into creating and learning the routines, it's not just dancing and waving arms. These routines must be practiced time after time till each member of the squad can perform perfectly.

Row One: Leslie Senft, Tonya Yoshioka, Michele Markham, Kris Wells, Tiffany Walsh Row Two: Sabrina Smith, Allison Freda, Lora Griesel, Shannon Jordan, Danette DeLeon Row Three: Renee Wren, Sonya Van Ryswyk, Stephanie Amack, Michelle Sata Missing: Vickie Marcelo, Tammy Moore.

There is more that the pom pons have to do to achieve glamour. While attending practices after school each day the girls have many other responsibilities, too. The girls must perform at two sporting events a week and keep up their grades. The pom pons must at all times exhibit school pride, spirit, and be good examples for the rest of the students to follow. The girls have an awful lot on their shoulders to deal with, but they know that all the time and effort is worth it, for they know that they will have many fond memories for themselves as well as their fellow classmates to carry on in the future.





In Which We Serve

Key Club is an extremely important organization to Smoky Hill High School. Not only does the group help students become dependable, mature, educated, and compassionate; but it also helps our society.

They're not just another club. They sponsor the Special Olympics and actually go out and help people in the community. In addition, they sponsor the Key Club Carnival that occurs in the fall, which is a fund-raising activity.

Ordinary People

The Utopian club is a community service club affiliated with the Cherry Creek Valley Optimists. They are truly a distinctive group of people at Smoky Hill.

The Utopians not only serve the community but Smoky Hill as well. The Utopian Club was responsible for the "fantastic" decorations at the Homecoming dance. They put forth a great deal of time and effort to perfect the scenery and perfect it was.

The Utopian Club has served the community in many ways. During the holidays they made a visit to the Cherry Creek Nursing Home to bring the elderly people flowers for Thanksgiving. At Christmas they held a party for a large group of underprivileged children. They brought Santa Claus along to present each child with a gift. They then proceeded to go to Denver General Hospital to sing Christmas Carols.

The Utopian Club is basically comprised of a group of giving people who demonstrate their care by giving of themselves. They not only get together to make the holiday season a happy one for many, but they get together the entire year just to have fun.

Business or Pleasure

Smoky Hill students are learning more about business through DECA: Distributive Education Clubs of America.

DECA students get involved in many fund raisers such as spook insurance, dances, selling Christmas and ornament sales.

The students also participate in many activities such as ice skating, mystery trips, skiing, and competitions.

The class of Distributive Education helps students prepare for competitions. Students must compete in areas of Sales, Product Knowledge, Math and Consumer Relations. The qualifiers take a trip to the Broadmoor for three days to compete in state competitions. In these three days, they participate in seminars, competitions, and many entertainment-type activities.

DECA has also helped out the radio club this year by lending them part of the money for the equipment needed to start the station. DECA has helped many students find out how the business world works and how it can work for them.

The Millionaire

Among the many members of this year's Future Business Leaders of America have been nine important members, and these members are officers: Tim Griswold, District 5 Representative; Stephanie Pankoff, President; Jim Lapaseotes, Vice President; Donna Stateman, Secretary; Robin Tinney, Treasurer; Liza Winegar, Historian; Tracey Warrick, Reporter; and Jim Houlne, Activities Coordinator. This year FBLA was headed by Mr. Tony Giardina.

This year the District 5 conference was held at Smoky Hill on February 2. Some of the events that were held were: Public speaking, Business Communications, Parliamentary Procedures, and the Poster Contest.

There were many people who qualified for the state Conference at the Broadamoor March 27-29.

Some of the things that FBLA did this year was have a pizza party, sell large Chocolate chip cookies, and sell posters. In May, they participated in an annual bed race for the Arthritis Foundation.

Peer Counseling is an important aspect of Smoky Hill. The Peer Counselors have two goals in mind. One is to serve the school by orienting new students and parents, assisting with Freshman seminar, tutouring students, and serving as a host for various activities, and the other is to grow, as a human being. This process starts at the end of the summer with a retreat and throughout the year at weekly meetings. The purpose of the retreat is to learn problem solving skills and to create a climate of caring.

Being a Peer Counselor is not all fun and games. As a Peer Counselor you are required to attend weekly meetings and to be available at least one class hour per day. They are graded on attendance, services provided, and personal growth observed.

Peer Counselors are showing a growing accountability for the services they provide. At the beginning of the year they received an award from the Smoky Hill Optomist Club for sharing the same interest to service to youth.

Great Expectations for

The ideas for the 1982-83 MAKING OF A CLASSIC yearbook originated at a conference held August 10th through the 13th at the University of Southern Colorado. The purpose for the conference was to plan and receive ideas for producing the yearbook. Pam Haug and Carol Calvert developed the theme at the conference and consequently were awarded first prize for theme and development and second prize for design. To produce the book the aid of six returning staff members was a benefit. Three of these members, Pam Haug, Carol Calvert, and Liza Winegar, were the editors; while the other three returning members, Gretchen Roberts, Dustin Cronhardt, and Eric Neumann, were assistant editors. Patience and knowledge were provided by the advisor, Mike Meagher. With the well-developed ideas and qualified staff we have GREAT EXPECTATIONS for THE MAKING OF A CLASSIC.

Absence of Malice

The newspaper staff worked very hard this year to make the paper one of the best ever. The staff often stayed after 5:00 P.M. to finish layouts and beat deadlines. Walking into the newspaper room on layout day, you would have thought that the world was coming to an end by the way the editorial staff of Jill McNeill, Stacey Rosenbaum, Julie Chung, Marty Farris, and Teresa Levine were acting. On layout day, there was much moaning, groaning and screaming (not to mention yelling of unprintable words.) When the dust cleared, the paper was ready to go to the printer, and the editors could finally relax.

When the paper came out there were several improvements. The front page this year was made more newsworthy, the paper was longer, and the layouts were more appealing to the eye.

Another successful year for the SMOKY HILL EXPRESS.

The Honor System

The National Honor Society at Smoky Hill greatly increased its involvement within the school this year. This included the recognition certificates students received for their accomplishments. The Society held an induction ceremony for students who had met the requirements of membership in February. Two seniors, Pam Haug and Kenda McCall, were nominated for a National Honor Society scholarship.

Chapter Members Inducted in 1982: Marketa Adamek, Stephanie Amack, Karen Brennan, Kimberley Church (President), Annette Coniglio (Treasurer), Pat Dowling, Gretchen Frank, Kevin Haas, Daren Hart, Pam Haug, Amy Howe, Steve Hubert, Toni Huggins, Leslie Lauric, Anita Lofgren (Secretary), Bill Mallett, Kenda McCall (Vice-President), John Muldoon, Camille Owens, Tricia Park, Vic Patel, Chris Reed, Shannon Schlenk, Chris Stephenson.

FM

There is a new program at Smoky Hill: KBUF. This is Smoky Hill's very own radio station. During lunch periods students have the chance to hear popular songs over the intercom. Mr. Onstott sponsors KBUF; he started this program on January 3rd. The first week was a trial basis; but it worked out well and is here to stay.

The National Forensic League has been a part of Smoky Hill's culture for a long time. This unique club is not only fun and exciting; but it also helps students learn how to speak to large groups of people with ease. A student does not have to debate in the traditional cross-examination style. Instead they can be humorous, dramatic, or extemporaneous. Mr. Onstott, the club sponsor, feels a student can have fun and learn at the same time.

This year Student Government has made a change for the better at Smoky Hill. Headed by Bev Farrell, many things have been done to better Smoky Hill's atmosphere.

Head Boy, Steven Hubert, said that this year Student Government has had better class involvement, more attendance by members, and has made progress in letting people know what is going on.

Each meeting of Student Government is open to the public and seemingly a lot gets done. Pep Assemblies and dances are just a few things we might not have without Student Government. If not for them, would school be that great?

Alien

This, 1982-83, school year proved to be a very influencial and unforgetable one for ten Smoky Hill students. These were none other than our foreign students whom have come from all over the world.

They had many activities during the year. The students' friendships formed a strongly knitted family. At the end of the year, a picnic was held to put all the last pieces of their visit together. This was one year of happiness, interesting experiences, and an everlasting friendship between them.

As the access of the computer is becoming greater to the average person, the future brings a wide variety of expansions in this field. So the needs for a growing computer club produced one at Smoky Hill.

Through the club, the members learned the foreign language of the computer. With this language, imaginative games and programs resulted. Therefore, these members of this unique club have learned a valuable tool for the future and also have fun.

Smoky Hill Marching Band, led by director Joe Brice, had another exciting year at Smoky Hill.

Highlighting the year was a trip to Mexico where Smoky Hill students marched in a Mazatlan parade.

Spirit was boosted by the contributions of the band as they played at football games, pep assemblies, and other performances.

The band was a young group having many underclassmen who will carry on the fine traditions established by previous groups.

Play It Again, Sam

The Smoky Hill Wind Ensemble has maintained an outstanding reputation throughout the state by receiving one ratings at every contest they have participated in for the last seven years. Thus, they are considered as one of the finest performing groups in the state.

Mr. Brice said, "the Wind Ensemble performs a consistently sophisticated and challenging repertoire."

The only way to participate is by audition only. They perform two concerts at Smoky Hill, and at two contests: the Colorado Band Association and the state competition at Westminister High School.

There is also Concert Band, and its purpose is to give the inexperienced players a place to learn and perform.

RHYTHM ... Mr. Brice conducts the Wind Ensemble.

LOUDER ... Mr. Brice wants the F Horns to bring their part out more.

The Smoky Hill Jazz Band program has also been consistently rated high in the state. They have performed for the Denver Doctors Association, and for the Humanities Institute.

They traveled to Mazatlan, Mexico, and were featured at the "Jazz on the Hill" concert.

Awards include: at the Rocky Mountain Jazz Festival they received an outstanding rating of one-plus which is the highest a group may receive. They also participated at the Skyline Jazz Competition and at the U.N.C. Jazz Festival.

Mr. Brice says that Jazz I, is a group which consistently maintains a high standard of performance and instills a great deal of personal pride in its members."

Many beautiful sounds come out of the choral room in the Smoky Hill Fine Arts Department.

The beautiful sounds are conducted by Mr. Paul Kittle. He works every year to make every concert the best; so their pride will show after each performance for a job well done.

The choir consists of Chamber, Swing, Festival, and Ninth Grade choir. These beautiful voices could be heard at such places as the Aurora Mall, the Sheridan and also at the faculty Christmas show.

They're best and busiest time of the year is in December, in between November and December, after Marching Band has closed for the season.

The Fine Arts Department put on the play Camelot with great success.

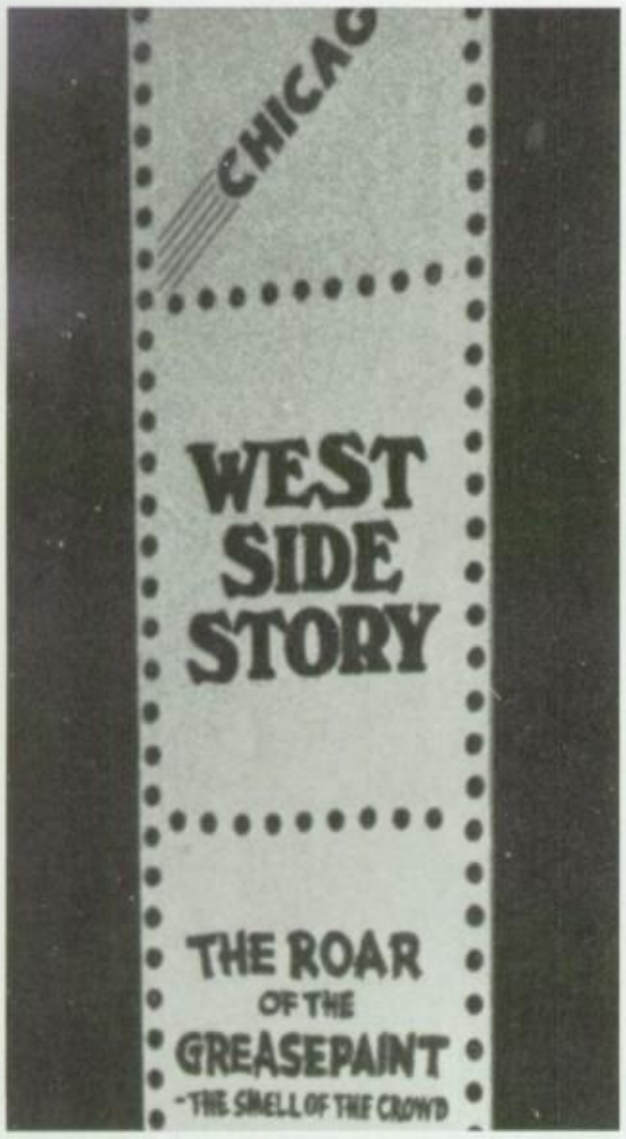
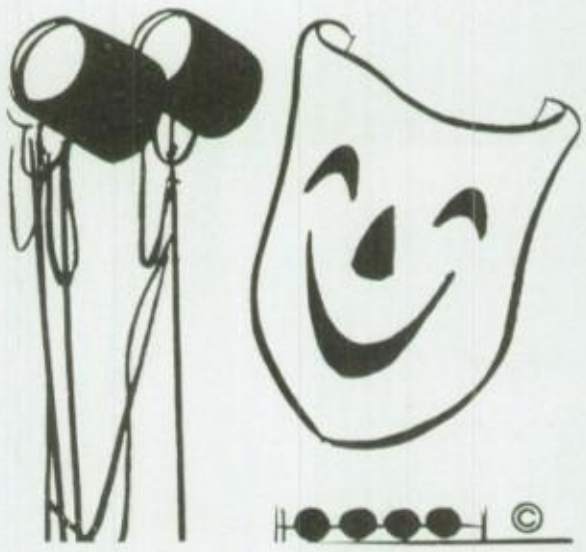
Camelot

This year Smoky Hill Theatre presented two outstanding plays, "The Shadow Box" and "Camelot". The Shadow Box starred Sam Griesbaum, Fred Sheldon, and Cindy Staatts. The play dealt with the lives of three different types of people as death becomes imminent.

Camelot is a fantasy play about the life and times of King Arthur and the beginning of the Round Table. It depicted a time when knights and chivalry were abundant.





THE SHADOW BOX. Fred Sheldon and Patty Holland talk about death over a bottle of wine. SAM GRIESBAUM, LESLIE STEINMAN, AND JOE UTSLER HAVE A LAUGH.

The Paper Chase

Smoky Hill has always had the distinction of being an academically-inclined school, and one of the major reasons is the English Department. The teachers in this area are there to make sure that you get a knowledge and understanding of language. This is accomplished by repeatedly practicing grammar, vocabulary, reading comprehension and research skills.

As an incoming freshman, your course is fairly well set with varying levels of difficulty. Also, there are specialized courses you can take, such as Journalistic Writing, British Literature, and Newspaper or Yearbook production.

The coordinator of the English department is Pat Puckett. She makes sure that all of the courses fit together and cover the right subjects. She has faith in the program and believes that it will "continue to excel with the growth of the school."

The Learning Tree

This year's Smoky Hill Math Department, headed by Bob Hiester, is concentrating on teaching the students the language of math. Since today's society is becoming so technologically oriented, students need to learn the language of math to be able to communicate with their peers in the math fields.

The Math Department is trying to teach students this language in all classes, ranging from basic skills to calculus.

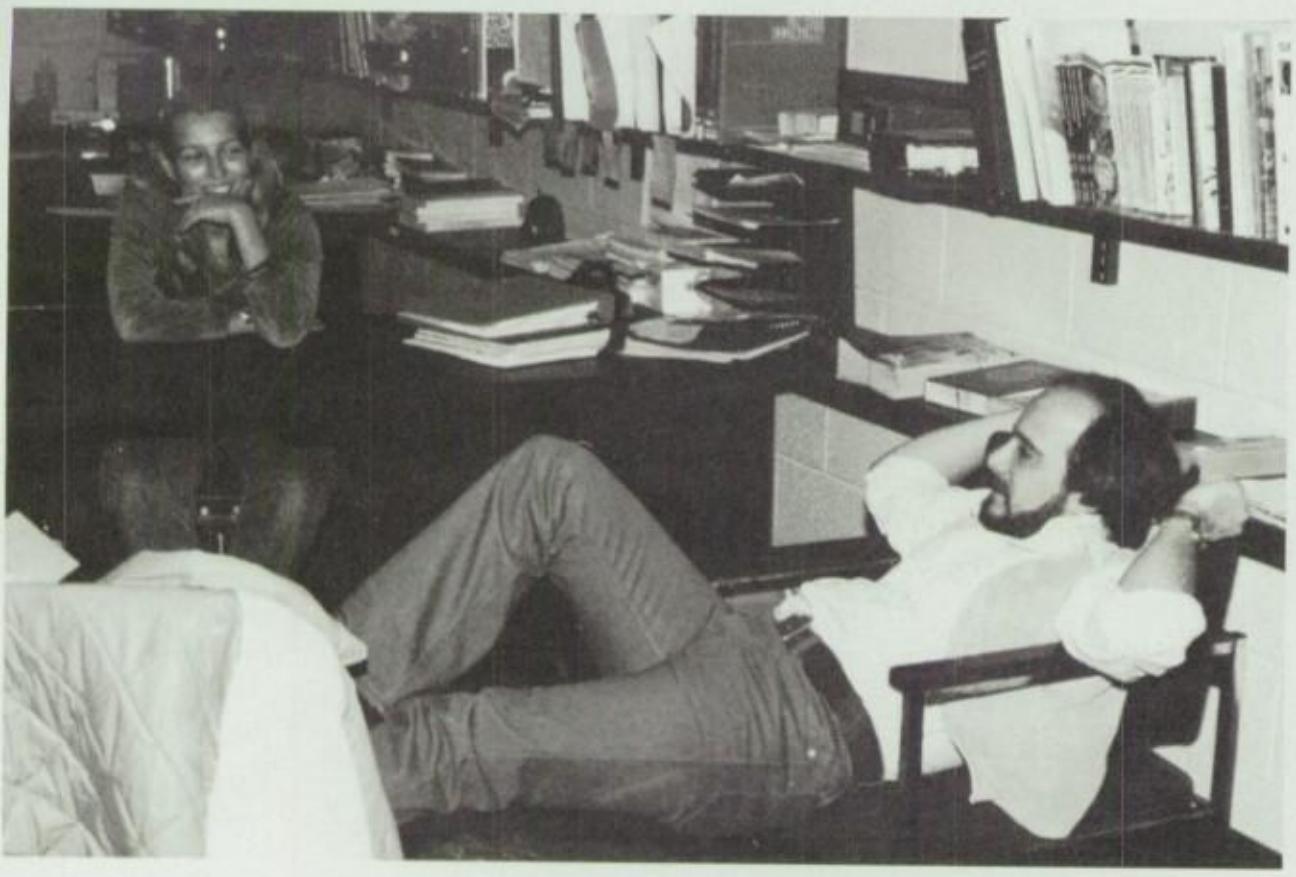
War and Peace



Smoky Hill has an outstanding Social Studies Department. According to Mrs. Miller, the Department Coordinator, we have productive teaching and one of the best programs in the state.

Over the past two years, progress in classes has gone way up. Students had the highest test scores in the district on the National Assessment Test.

This year we added two new teachers to the program, Mrs. Givens and Mr. Hatfield. Social Studies is continuing to expand since it is such a well liked subject among the student body.

NOT THE MAP AGAIN! Mr. Jensen teaches his students all about the world in his history class (opposite page).

The Wizard of Oz

Smoky Hill should feel honored to have the well equipped and superb teaching staff of the science department. The science department offers classes including Introductory to Physical Science, Biology I and AP Biology, regular and advanced placement Physics, Chemistry and College Prep Chemistry, and other science related courses to help those who want to prepare for a career in a science related field.

Smoky Hill students get the privilege of actually working in a lab and experimenting with scientific instruments. Actual specimans are used in AP Biology to study how an animal's system functions and how it can be compared to humans. Miss Debello, the new addition to the science department states, "With the projected growth in the number of students taking science courses, I feel it is still important for the students to participate in hands on experiences in the lab."

The French Connection

The Foreign Language Program here at Smokey Hill is very popular. Many students are involved with either Spanish, German or French. There is also a club for each language which plans special activities like movies and parties.

"It's a great program," said Mrs. Ann Whiskeyman, the foreign language coordinator. "We have super, dedicated teachers, who make all the classes fun and exciting."

The Department has also planned weekend retreats to the mountains, for upper level students. Foreign Language is not just for school. "It is a very important tool to have for many other careers," Mrs. Whiskeyman concluded.

How To Succeed in Business ...

LAUGHTER ... Mrs. Chiri shares a joke with her class (top right).
NEEDY ... Paige Beals and Howard Atkins get some help with their accounting (below).
MALE SECRETARY? ... Mike Jordan may use his typing skills someday (below left).

"The Business classes help prepare the student for life in the real world. They help the student find a compatible career, earn a living, and cope with real life problems," explained Mrs. Chiri, who heads the Business Department.

Some of the classes available are Business Law, Money Management, Distributive Education, Co-op Office Education, and Accounting. There are also writing classed such as shorthand, and typing. Notehand is a class that is great for efficient notes. Freshman and sophomores are advised to take job exploration because it gives the student a chance to look at many jobs in business.

Mr. McDonnell, who teaches Accounting and D.E., feels it is a necessity to have a business class in your curriculum. As Mr. McDonnell stated, "Approximately seventy-six percent of the jobs out there are directly linked to business."

Driver's Education is a class that provides students with a chance to learn to drive safely. It is under supervised instruction that these students learn the fundamentals and safety rules of driving. A few of the advantages of taking the course is that with a "B" average, a student can obtain a lower insurance rate, and they also develope the proper driving techniques, instead of bad habits. The driving instructors are Mr. Cooper and Ms. Kissinger.

Students look on as the teacher, Ms. Kissinger, tells of the many dangers of careless driving (Top Middle.

As the class begins, students are asked to give information about themselves pertaining to their experience. (Bottom Middle).

Mr. Cooper, one of the driver's education teachers, awaits results of questions given to the students.

Why Men Create

The Creative Arts Department at Smoky Hill was under the direction of Mr. Craven again this year. Many students participate in the varied programs offered in this section of the school.

Each semester, several different types of classes are taught through the Creative Arts department. One popular class is Photography. Foods, electronics, drafting and auto shop are also given, in addition to the more traditional art classes.

Many special projects go on each year that involve talented students who would not get the recognition they otherwise deserve. One of the major projects is the district art show, held every year. Recently, display cases were added to provide a place to show student's work to their peers.

Smoky Hill students learn many important skills in their Creative Arts classes. They provide basic techniques of woodworking, automotive repair, and other practical resources. These skills will help to prepare the students for their life after high school.

Have you ever passed room 2-701 on your way to class and smelled the delicious aromas of freshly baked goods? Well what you were smelling or may have had the chance to participate in was one of Mrs. Harmon's cooking classes.

Home Arts offers all students a chance to learn and participate in classes that will help you with problems people face in their every day lives. A variety of cooking classes are offered including gourmet cuisine, creative foods, and foreign foods. Students learn what their nutritional needs were along with basic food preparation. The sewing and fashion classes offer one ways to plan and enhance their wardrobe and at the same time save you money. Wilderness Survival takes a combination of the cooking and sewing classes and combines them in a wilderness situation.

Pumping Iron

Smoky Hill's Physical Education Department offers many exciting and diverse classes. A student can take scuba diving, bicycling, yoga, skiing, golf, or swimming, to name a few.

Included in the group of P.E. classes are the "Band Aid," Care and Prevention, Sports Medicine and adaptives classes. These classes deal with the human anatomy and ways to repair it.

To have such a diverse selection Smoky Hill has eleven teachers for this department. The philosophy behind such a diverse selection of classes is to parallel the Greek idea that a strong mind and body are the best way to succeed.

This year, Smoky Hill's Resource Centers were kept in running order by many people, but most of all it was the secretaries' job to help people in the Resource Centers.

The Resource Centers are a great benefit to students here at Smoky Hill. All six of these, including the Business, Science, Math, English, Social Studies, and Foreign Language, contain materials for students and teachers. The secretaries enjoy their work and the students they work with through the day. The Resource Centers are a place to learn and study for all students.

The Great Adventure

The Off-Campus department offers many exciting classes. The differences between these classes and the "solid" classes are they meet out of school time and they involve the students in the community and with other people. Each class can be considered a GREAT ADVENTURE! For example, EPIC-I Can Fly involves the students with the aviation field and the final class is actually flying a lightweight aircraft. EPIC - Medical Careers introduces the student to the medical profession by touring hospitals. The Dry Creek Outdoor Education Project takes students into the position of a teacher's aid. These students go up to a camp for four days with sixth grade students. Students can also go outside of state or even the country. The Baja Whale Watch takes the students to Baja, Mexico to observe whales. Off-Campus truly is a GREAT ADVENTURE!

LIBRARIANS HARD AT WORK. Judy Hansen and Carol Grams work to keep the library in perfect condition

Smoky Hill's library is one of the best places to learn, research, or relax with your favorite book. It is quiet, neatly furnished and a comfortable place that has a wide variety of books and materials.

Judy Hansen, the head librarian at Smoky Hill has been working here for seven years keeping the library in tip-top shape. The library offers a large array of books, audio visual materials and periodicals. It also has many newspaper articles for research and enjoyment.

In the A.V. department is Mrs. Walker controling things such as videotape machines, recorders, and projectors. She also handles the distribution and delivery service of these materials.

Carol Grams, Media Specialist, is in charge of the student assistant program. With the help of aides Bunnie Knabenshue, and Kathy Pfaff how could the library be anything else but great? It's your Information Place!

C.C.C. Aids The Graduate

Wagner Runs Show

Mrs. Wagner is the backbone of the College Career Center (known to most students as the C.C.C.). She's been working here for about three years. Mrs. Wagner feels that Smoky Hill has designed an excellent aid for students. Not only does the C.C.C. offer superb help to the students who are interested in college, but also for the student who would like to go into a career right away. She explains to them the different routes they may take: vocational schools (two years), apprenticeships, and other options. When the students come into the C.C.C. and want to know about financial aid, Mrs. Wagner explains to them what aid there is and how to go about getting it. The College Career Center is an important part of Smoky Hill's program to help students prepare themselves for the world beyond high school.

Every Which Way But Loose

Prime Time is a ten minute period that informs students and teachers about activities that involve the school, community and state.

Prime Time is a place where the students are informed about what is going on in Student Government. It gives an opportunity for students to vote on or discuss projects done by the Student Council. Prime Time is a time for the students to get involved and to know what is going on at Smoky Hill.

Although Prime Time has been a controversial subject the last couple of years, it has gone through changes to improve student attendance and participation.

Prime Time first was changed from a fifteen minute period to a ten minute period which not only gave students a shorter class period, but also lengthened the passing period to ten minutes.

Then, in January, the administration decided to only have Prime Time once a week on Thursday. The other days, second period was lengthened by five minutes to allow time to read the announcements of the day.

The World According To ...

At the top of every school district is the central administration ... The Cherry Creek District has two standout men at the top ... Dr. Richard Koeppe and Dr. Don Goe.

When asked his idea of a classic, Dr. Goe replied, "An Idea of A Classic is usually a form of art, such as a painting or literature, that has stood the test of time and has remained as precious and beautiful as the day it was created."

Also, when asked about an idea of a classic, Dr. Koeppe replied, "It is a timeless message for the good of all men to cherish."

Koeppe's time is spent mostly improving the Cherry Creek School District. He feels that the major goal to be concerned about is the one that is to make plans to accommodate the growing population of students in the area of Smoky Hill High School.

The other goal is to try to get the computers into the elementary and junior high grades; to teach students so they will know how to use them when they reach high school.

Head Principal, Dr. Eric Eversley, along with assistant principals, John Buckner (Student and Instructional Services), Don Groves (Operations and Fiscal Services) and Dr. William Larson (Athletics and Activities) have been very involved with the student body. In an effort to improve our school, they have brought in many of the new top-notch teachers that we now have.

Parents too have been showing an interest in the special functions around Smoky Hill. They are very pleased with the initiative, pride and most of all, spirit which the students have shown at Smoky Hill.

A classic ...

Dr. Eversley: Something that has endured the test of time and is significant for all generations.

Mr. Buckner: Something that has withstood the scrutiny of time and evaluation.

Mr. Groves: Something that has endured in terms of its appeal to people over an extended period of time.

Dr. Larson: Something that has enough depth to it, that when done has a lasting value.

The Enforcers of Smoky Hill

Deans are people too. The toughest job they could have received is the one they got. They patrol the hallways and fight corruption in our school. Without them, what would we be? Probably mischievous kids.

Mrs. Doris Baldwin and Mr. Herb Wilson are the deans of Smoky Hill. Since they have been in these positions, they both have noticed many changes and accomplishments.

Mr. Wilson commented that there has been a "general mellowing of the student body."

Both enjoy being deans but are aware of frequent problems. Plaguing our school are ditching, alcohol use, and uncalled-for fights. They feel it is, "everyone's job for discipline," and if this is accomplished, we will truthfully be able to call Smoky Hill a classic school!

One On One

The Smoky Hill counseling department consists of seven counselors: Lee Bender, Lorea Acuszaar, Foster Campbell, Tony Kaempfer, Gail Miller, Sandy Nearpass, and Gwen Sells. The counselors are all specialists in the counseling area, and are educated extensively in the areas of communication.

Lorea Acuszaar is one of the most experienced counselors on the staff, having worked in cities all over the world. She finds Smoky Hill a "relaxing and interesting change of pace" comparing it with her previously held jobs. The thing she finds nice about school is the diversity of the staff and students.

Foster Campbell has been a counselor for 18 years and of that 18 he has spent nine at Smoky Hill. He likes "the constant contact with students and parents." The one drawback about his job is that occasionally it gets "mundane and he dislikes schedule changes."

Tony Kaempfer feels his job gives him the opportunity to be in contact with some real neat kids. The drawbacks are the "paperwork and schedule changes." Otherwise Tony really enjoys his job.

Gail Miller has been at Smoky Hill, counseling for four years. The thing she likes are: "The one to one contact, the flexibility and the ideal opportunities to deal with students on a more personal basis." Singularily her only dislike is the paper work involved with counseling.

Sandy Nearpass has been at Smoky Hill for seven years, The thing she enjoys about it here is "the constant one to one contact with kids." The few drawbacks of her job are "the lack of understanding about a counselor's role, which results in the putting down of the counselors and their department."

Lee Bender is the counseling department coordinator at Smoky Hill. Mr. Bender's favorite thing about counseling is the "opportunity to work with students and help them in the normal developmental process of growing up." His only major dislike is the pay.

Gwen Sells has been at Smoky Hill since the school first opened, nine years ago. She really enjoys the concept of working with people and scheduling their education to meet future needs. The only drawback about counseling is that there doesn't seem to "be enough time in the day."

Working '9 to 5'

There is an old saying: "If you want something done, ask a busy person." Here at Smoky Hill, some of the busiest people you will find are the secretaries. They grind through the paperwork that keeps the school running.

One of the veteran secretaries is Mrs. Dickerson. She works in Area Four with Mary Schmaltz and Diane Huenerfauth and together they take care of all the activities and athletics at Smoky Hill.

In Area Three, Cathy Schuster and Mrs. Lipsky set up appointments for students with their counselors. Chris Vavra, in Area One, is Mr. Buckner's secretary. She helps him take care of students with course changes and schedule problems. Helping maintain discipline in Area Two is Mrs. Howell. She helps Mr. Wilson and Mrs. Baldwin, and keeps an eye on the detention room.

You will find two more hard workers in the main office. One is Ruth Hogan, and the other is Dr. Eversly's secretary, Lynda Englert. All of these people are a major part of Smoky Hill and deserve credit for many of the school's activities.

Ms. Nancy Miller is one of the finest teachers at Smoky Hill High School. She has taught in the district for 23 years and has been teaching at Smoky Hill since its beginning, nine years ago. Last year she was one of five teachers in the entire district to be awarded as an outstanding teacher. Her students, fellow staff members, and her students' parents combined their efforts and nominated her for this presitgious award.

Nancy Miller is involved in a wide variety of activities at Smoky Hill. She is the coordinator of the Social Studies Department, sponsor for the National Honor Society, and teacher of the Animal Crackers and Fortnightly off-campus classes. Her teaching duties are U.S. History, Advanced Placement U.S. History, and the English as a Second Language class. Ms. Miller is more than a teacher; she is a friend one can count on! Smoky Hill is fortunate to have a teacher like Nancy Miller!

Three years ago he took on the position of being adviser for the yearbook as well. He is definitely qualified for these positions. He has a B.A. degree in English with a minor in journalistic writing and a M.A. in communications. While in college, he was on both the newspaper and yearbook staffs.

He also worked as a sports writer. He is the coach of the junior varsity baseball team and has coached for the summer league team.

That golden voice one hears at the varsity basketball games comes from Meagher. All in all, Mike Meagher is an outstanding teacher and person.

The Making Of a Classic

Smoky Hill Presents

The Grand Finale

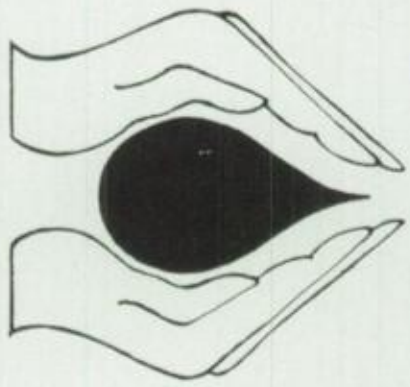
The Red Badge of Courage

The Senior Class blood drive that was held in Decmeber, was a terrific success. It brought together the entire cooperation of the senior class for the purpose of recruiting and observing the health of the donors who gave blood.

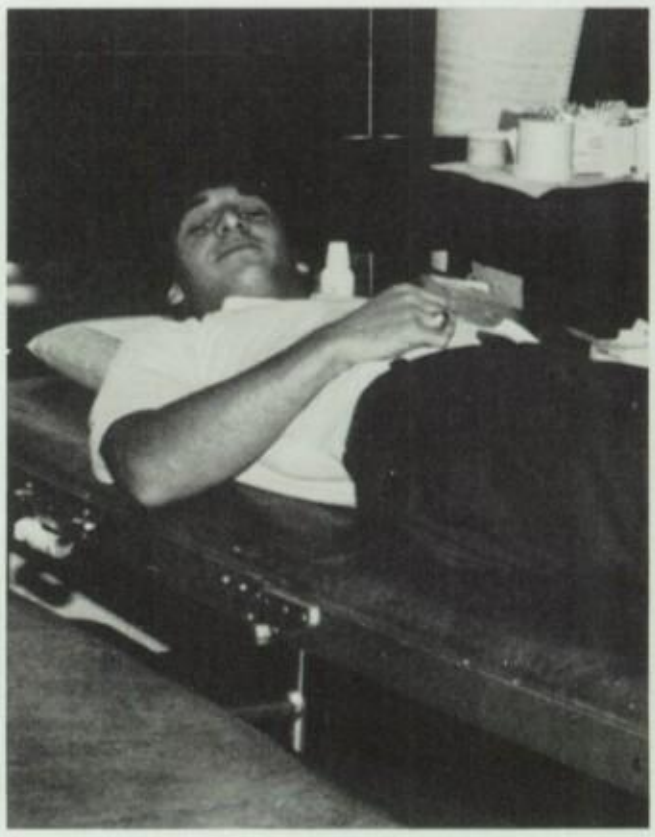
Belle Bonfils Memorial Blood Bank benefitted from the donation of 96 units of blood. This was the largest single donation recorded during the month of December by the Bonfils Blood Bank.

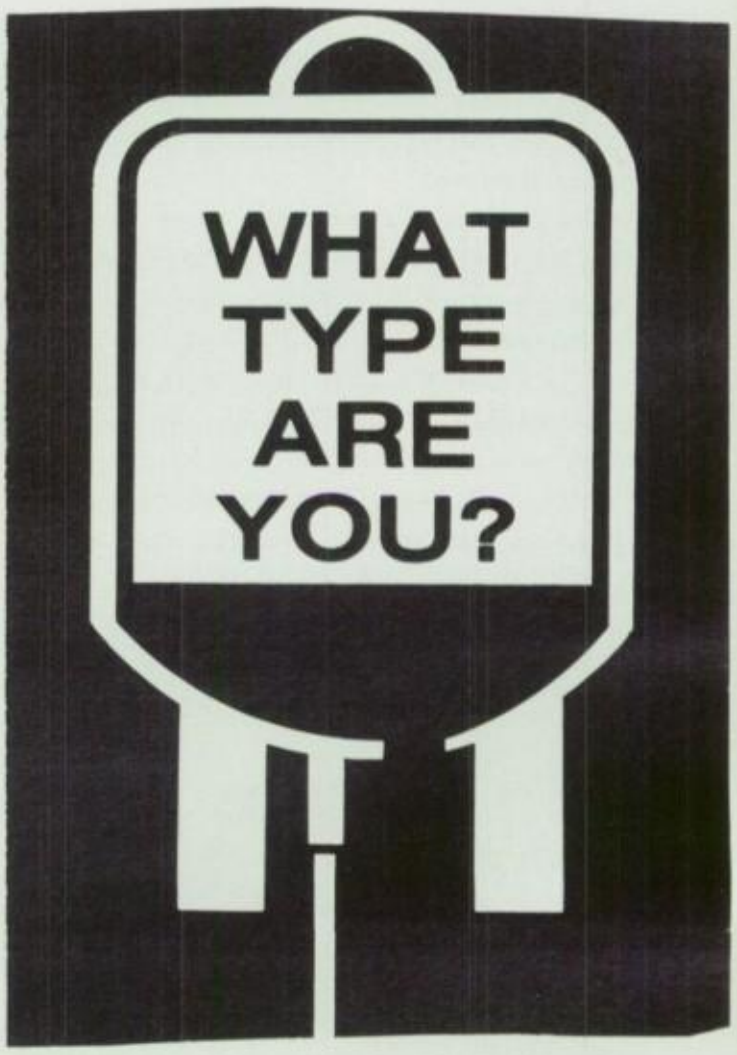
This was due in part to the outstanding contributions of Linda Wilhelm, Phil Richards, Melissa Turner, Robbi Whitehead, York Brogden, Kathy Straayer, Patrick Dowling, and many more.

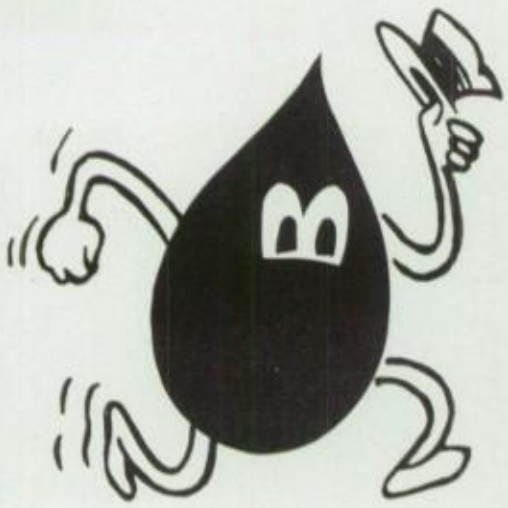
Response to the first blood was so great that it had been decided to hold a second blood drive in the spring —



MARTY FARRIS smiles as he turns away from the nurse who is about to take his contribution of blood.







SMILE - even though it may hurt. Kim Holmes and Liz Charlton grin as they wait for their donation to be taken (bottom left).

WAITING . . . Mr. Morrissey awaits while the nurse prepares to take his donation. PAT DOWLING walks over to greet a fellow student who has helped to make the blood drive a success.

BREATHE . . . Tom Bowman takes a breath test that was required in order to donate blood.

Movie Movie

If you're a movie buff, you probably had no problem finding a good movie to see (and even if you don't go to movies to watch them, you may have realized this year that movies can be fun to watch). This past year has proved to be a great one for producing top-rated money-makers.

Audiences went wild over movies such as: "An Officer and a Gentleman," "The Verdict," "First Blood," and "Poltergeist."

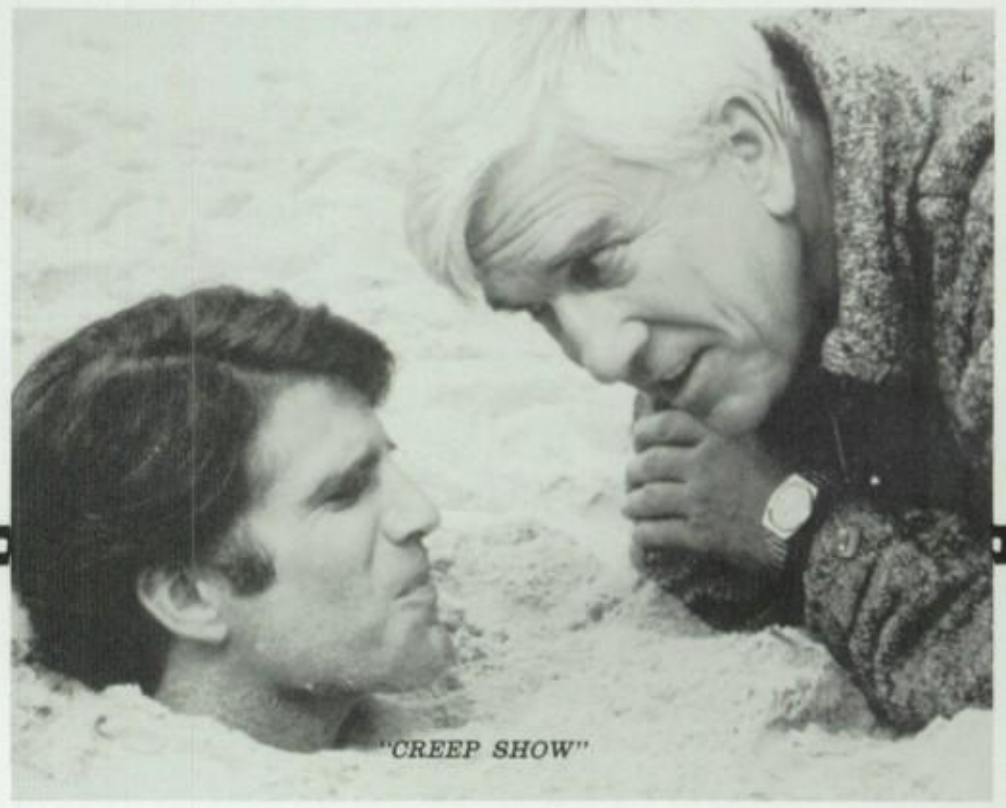
The world fell in love with "E.T.", and "Tootsie," had us laughing to the point of tears.

These are only a few of the numerous great movies that will make this year really something to remember!

"E.T. - THE EXTRA-TERRESTRIAL"

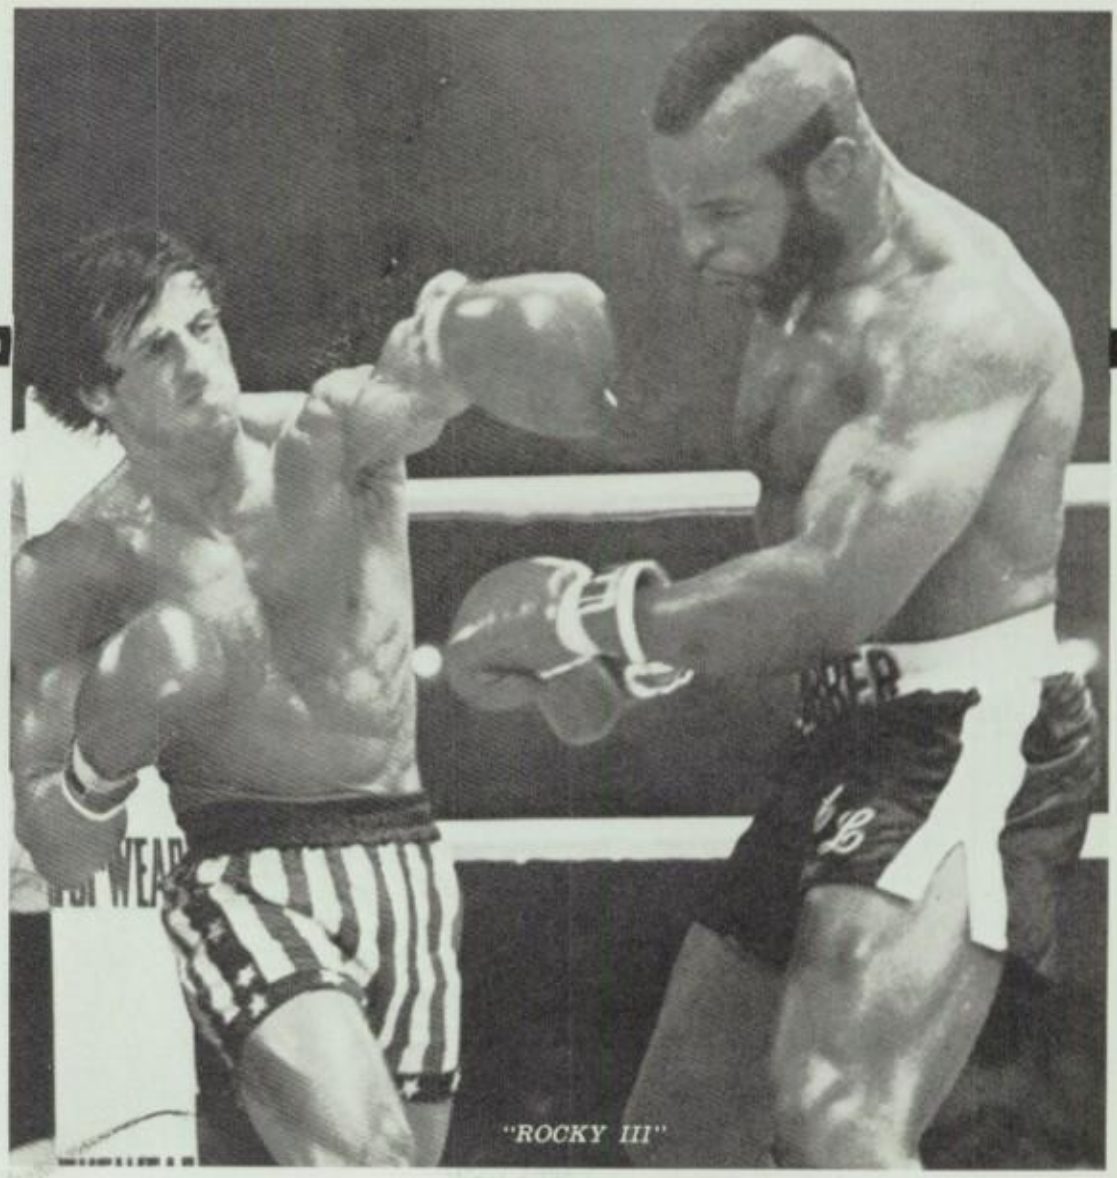
"SOPHIE'S CHOICE"

"BEST FRIENDS"



"CREEP SHOW"

"THE WRATH OF KHAN"



"ROCKY III"

"THE VERDICT"

"48 HRS."

"THE TOY"

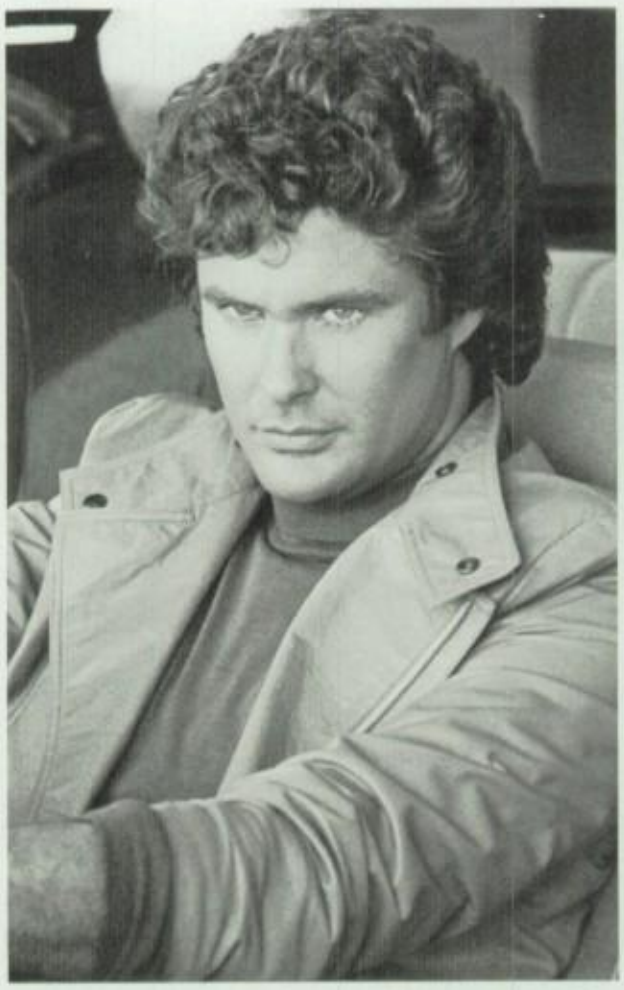
Network

Television during 1982-1983 was more than just a pastime; it was a year that brought historical events as well as drama, comedy, and mystery to television audiences across the continent.

One of the highlights of the season was the mini-series "Winds of War" based on actual events of World War II. The other production that will be remembered for decades to come, was the last showing of "M*A*S*H." On February 28th, 1983, millions of Americans stayed home to watch the ending of a tradition.

The television season was also highighted by the broadcast of new shows such as "Remington Steele," "The Fall Guy", and "Knight Rider." Last years shows, "Fame and Hill Street Blues," continued their success.

The 82-83 season was a tremendous success that established exceptionable production and more viewers than ever before.



MEN ... Knight Rider, Simon and Simon, Magnum P.I., The Fall Guy, and The Richard Simmons Show, were especially successful with the female audiences (opposite page).

MYSTERY ... Remington Steele was one of many new shows that kept NBC in the rating battle.

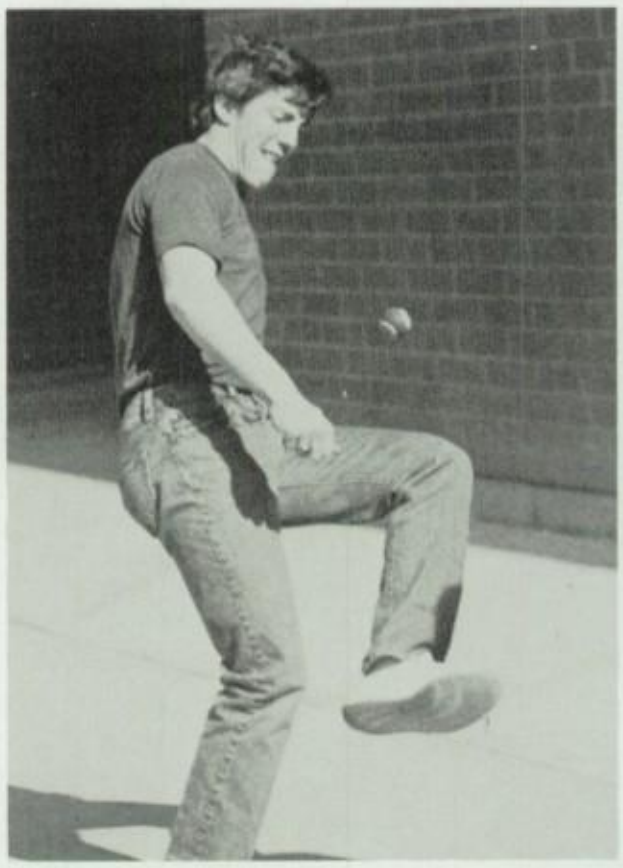
TOGETHERNESS ... Thursday's were ruled by NBC's showing of Fame and Hill Street Blues (this page).

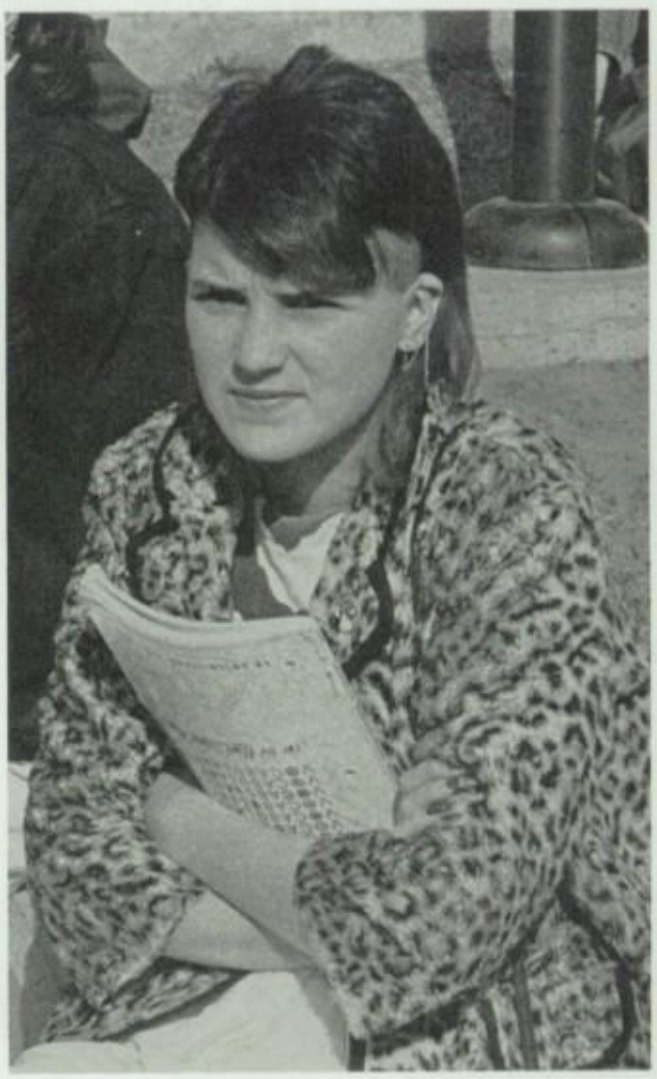
TOP THREE ... Mash, Dynasty, and 60 minutes, were among the most watched programs.

The Good, The Bad, The Ugly

"Barf me out, Gag me with a spoon, Oh my God!" During 1982-1983, these sayings seemed to be heard everytime a person turned around. It was a year taken over by Valley Girl talk and actions. It was also the year that decided who the "real" men and women were.

Not only was the style of talking exceptionally different, but also the style of dress. Name brands seemed to take the country by storm. Polo, Izod, Ocean Pacific, and Lightening Bolt, were just some of the many name brand articles of clothing displayed by almost everyone. It was also the time when mini-skirts and punk haircuts were the craze. As you walked through the halls of Smoky Hill, students dressed from preppy to punk to what seemed to be fit for California weather.





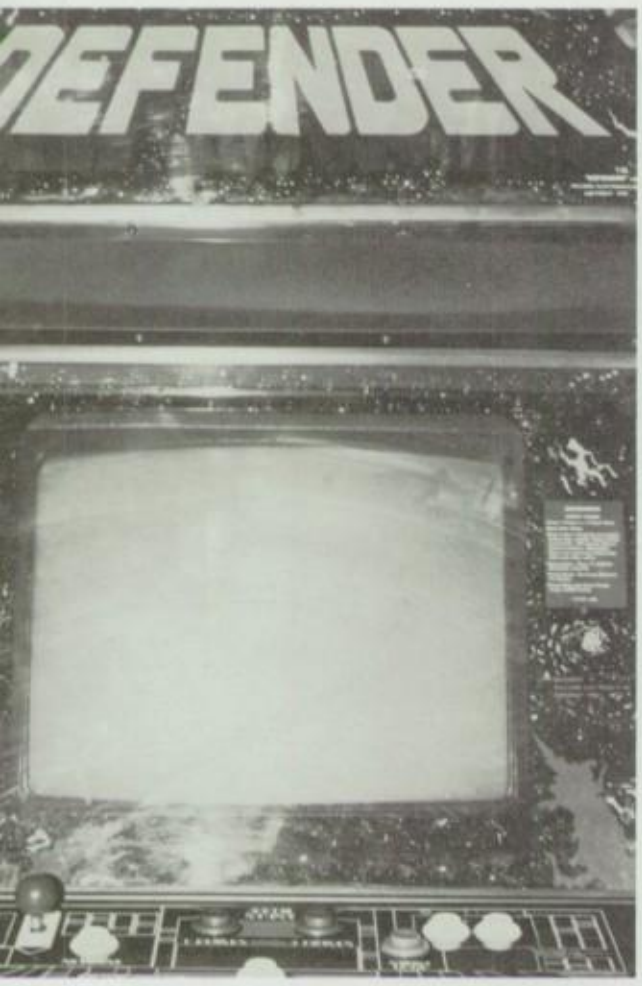
KICK . . . York Brogden plays hackey-sac with style (top, middle)

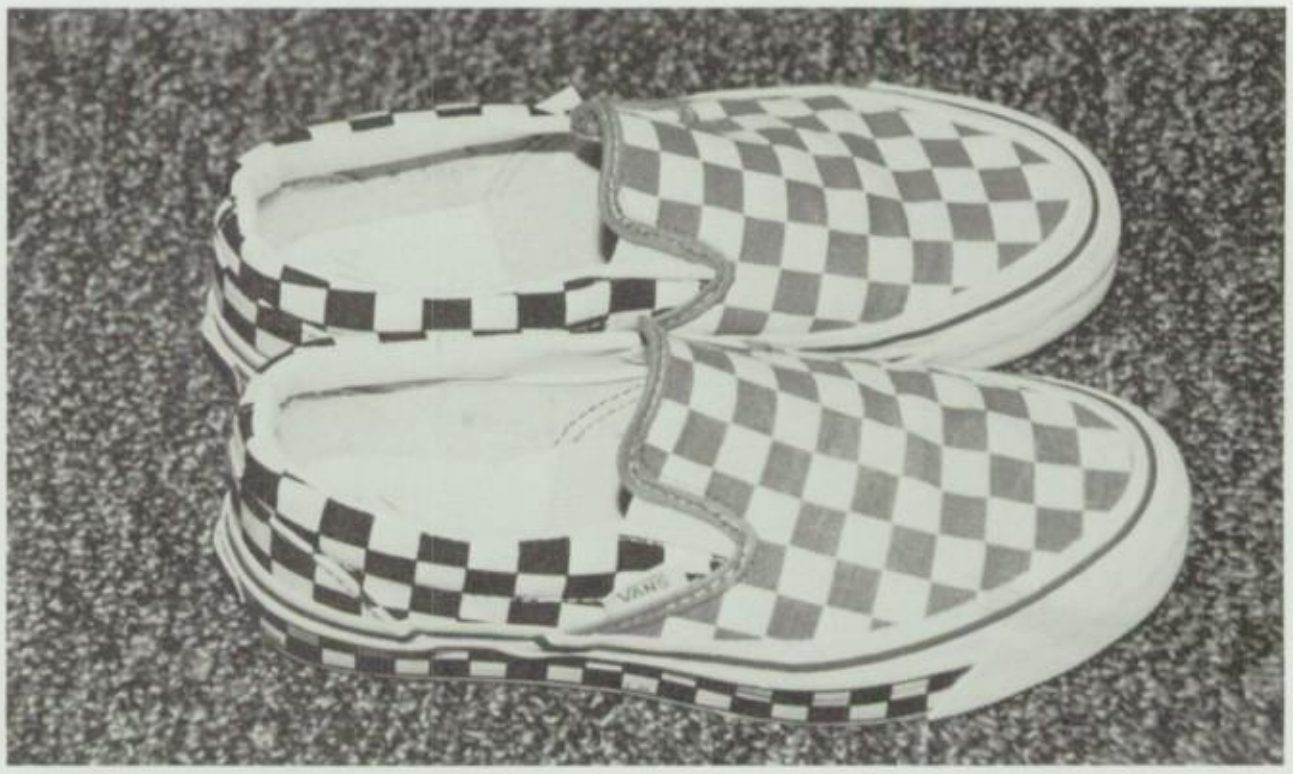
BEEP! . . . Centipede was one of the most popular video games.

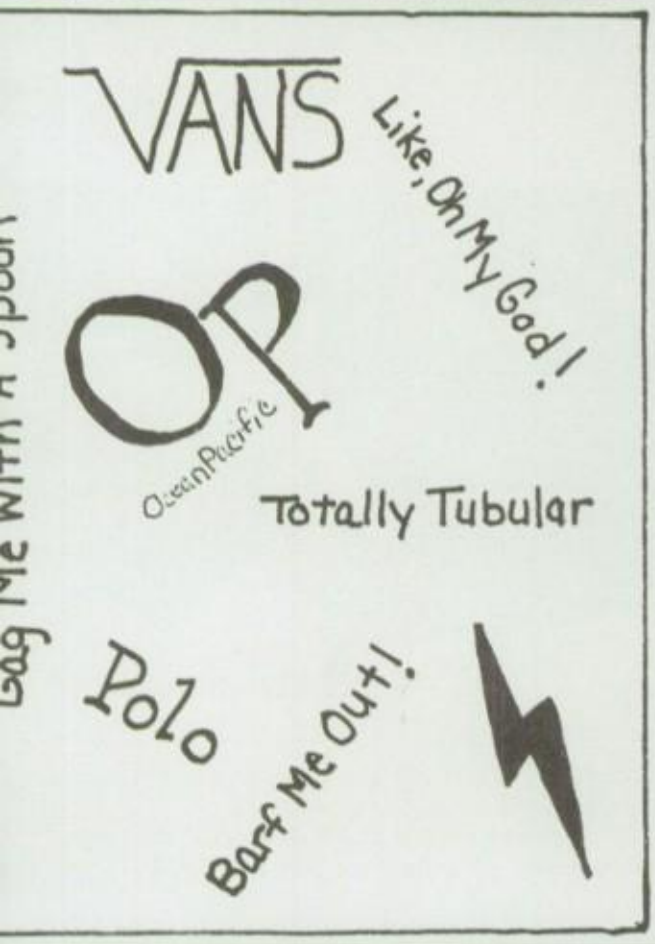
BELLIGERENT! . . . Garfield was a favorite with every one.

BUFF HATS . . . Smoky Hill hats were a big success.

PUNK . . . Piera Bocciarelli displays her haircut.







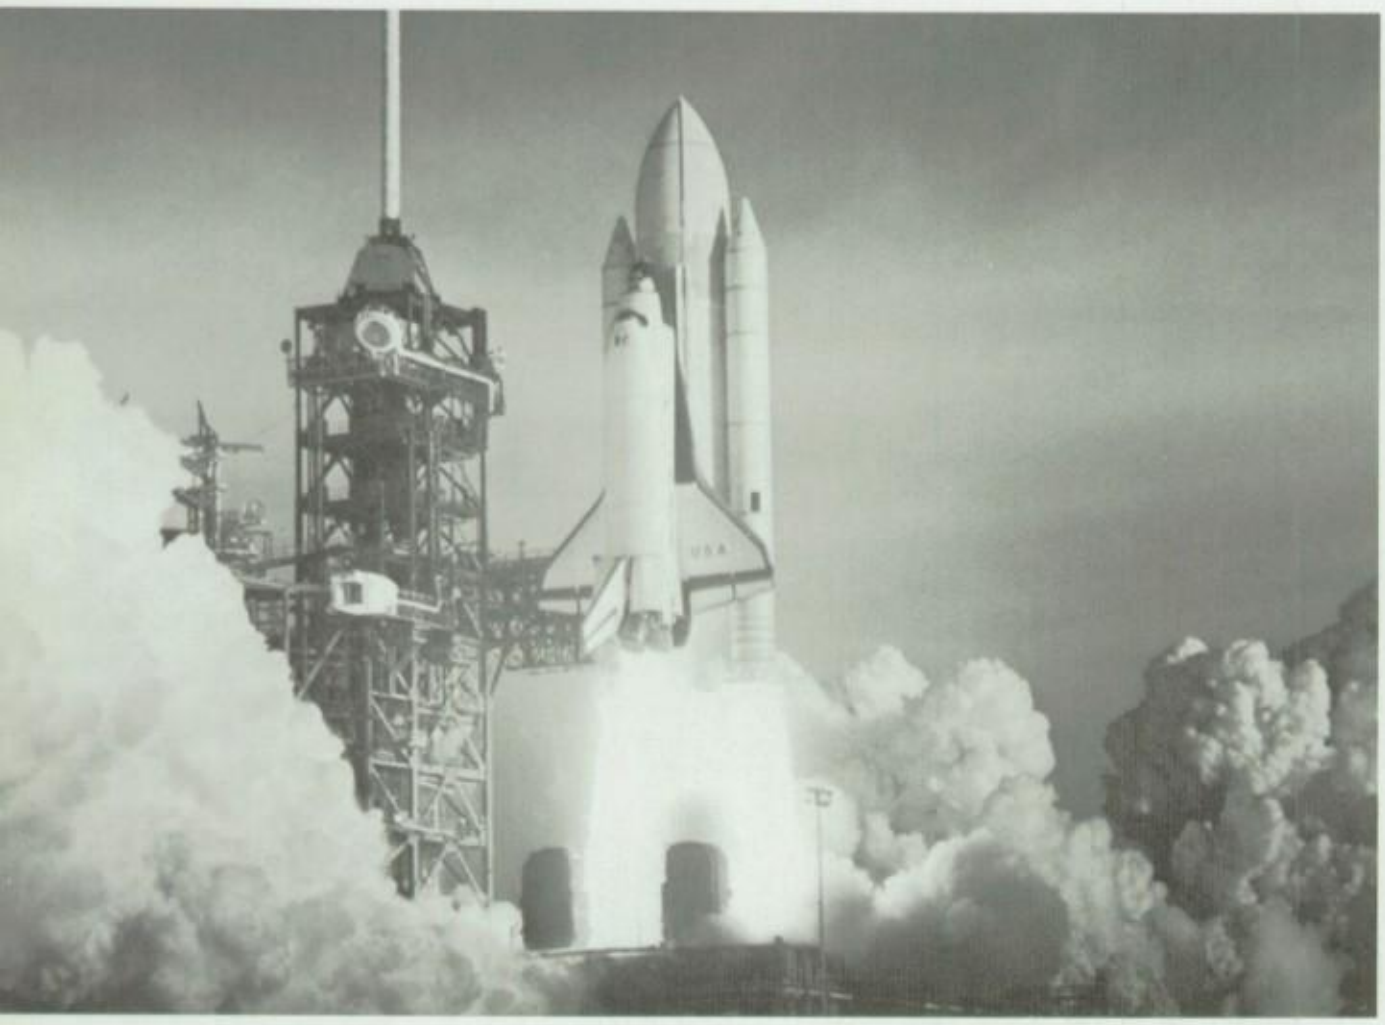
CRASH . . . Defenders was a video game played by all. (top - left);

CHECK IT OUT . . . Vans were worn by almost every student at Smoky Hill;

SHORT . . . Miniskirts were brought back in 1982-1983;

GAG . . . Holli Smith seems to be saying, "Gag me with a spoon."

Isn't Life Wonderful?



The world we live in has become increasingly complex. Events happen every day that will shape the rest of our lives. During the school year, our world has heard many startling news stories.

In September, school started, and so did a rash of drug poisonings. Chicago experienced the majority of these tamperings, but Denver also experienced some.

The world of sports also was the scene of several major events. In November, the St. Louis Cardinals won the World Series. The Washington Redskins won Super Bowl XVII in January.

Such events shaped this classic year.

Springtime in the Rockies

Spring is always a time of increased activity around Smoky Hill. This year, many events were planned in which students could channel their extra energy.

MARCH:

The Smoky Hill Flag and Rifle Corp, A Touch of Class, continued their winning ways. The guard marched in several competitions, doing well in all.

The second theatre production, Camelot, was well performed and provided excellent entertainment between snowstorms.

The Class of 83 held a Poor Man's Prom to raise money for the class gift. This fund-raiser was needed because the annual Senior Talent Show was cancelled.

Many off-campus trips took place in March including Close-Up in Washington, D.C. and the Baja Whale Watch in Southern California.

APRIL:

During April, everyone prepared for the Junior-Senior Prom.

MAY:

The final month began with a spring version of Fall Festival. May Madness contained dress-up days and special activities.

The Smoky Hill Girls Soccer Team has been constantly improving over the past few years. This process of improvement continued this year, despite being slowed by the weather.

Returning seniors Julie Hertzel, Liz Charlton, Anita Lofgren, and Kim Church formed the basis of the team. They were given great support by numerous talented underclassmen.

This year the soccer team attracted many new players, especially freshmen who will be invaluable in the next few years. With head coach Mr. Wigand in his second year and many talented underclassmen, the Buffs will surely be a challenger for the league title in the near future.

It's Alway's Fair Weather?

Smoky Hill Lacrosse has been known by its tradition of excellance and this year was no exception. After being slowed by the frequent snowfalls, the Buffs worked hard and made a great showing in competition with other schools. Returning seniors York Brogden, John Curtis, Joe Thomas, Todd Simpson, Bill Anderson, Alan Steinert, Greg Spence, and Scott Holub formed the core of the Buffalo attack. Strong participation by members of the junior class will guarantee another strong season next year. The degree of success we experienced this year showed that a little snow will not defeat the lacrosse program at Smoky Hill, it just means everyone will have to work that much harder.

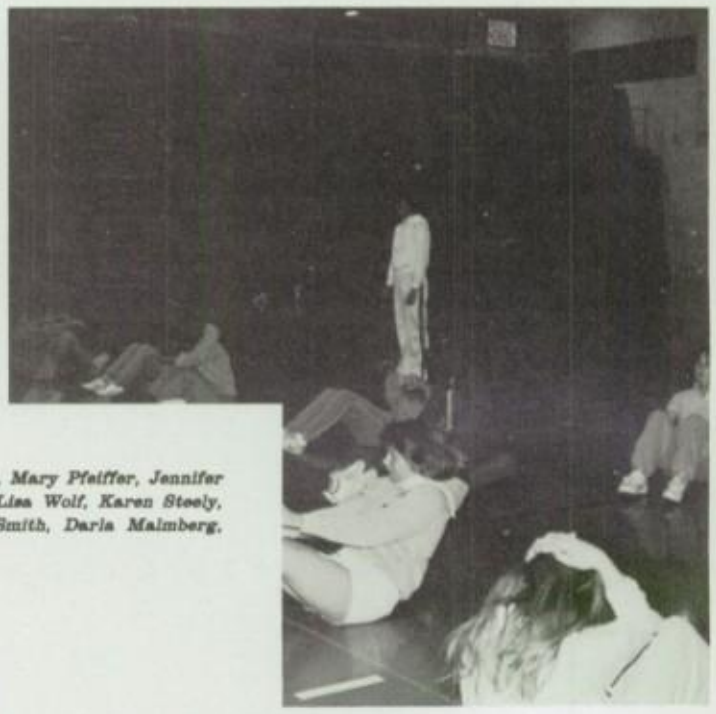
TENNIS ANYONE? Smoky Hill's girls tennis team faced the same problem as most of the other spring sports teams - not being able to play because of the continual snow fall. Unfortunately, the first three matches had to be postponed.

If one were to pass by the west gym at 3:00 p.m. on any particular day they would be surprised to see the new sport at Smoky Hill - Indoor Raquetball. The team felt as if they were that instead of tennis players. For an average practice day the team had to set up a court in the west gym. To do this they used two weight stands and a volleyball net. Other indoor activities were lifting weights, running, conditioning, hitting off the ball machine, and hitting off the wall. Despite the lack of actual court time the team showed great promise. Returning senior, Amy Howe, was predicted to fair well at the number one singles position. Sophomore, Chrissie Godbey had improved tremendously from the past season and showed promise at the number two singles position. The team is deep, yet very young. Much was expected of freshmen Becky Kofoed and Michelle Kincaid. The season got off to a slow start, yet it was the best year for girls tennis in the history of Smoky Hill so far.



Girls Tennis - Front row: Shannon Green, Amy Howe, Carol Calvert, Crissie Godbey, Toni Fenner, Meg Spence, Michelle Kincaid, Kris Moeller. Second row: Michelle Scott, Shawn Elliott, Tammy Davis, Heidi Reifel, Tammy Jones, Becky Kofoed, Pam Haug, Dorothy Pacheco, Jennifer Reifel, Susan Brennan, Kim Peat, Natalie Romero, Erinn Barclay. It Happens Every Spring

The 1983 Varsity Baseball Team had high hopes for their season. The team had just come off two winning seasons and were hoping for another. Although their pitching and catching were questionable because none of their pitchers or catchers had had any varsity experience, their offense and defense could have possibly been the best in the Centennial League. Top candidates for pitching were: Tony Faust, Mark Bender, Chris Decolati, Jeff Cox, Chris Heath, and Bill McKinney.

A main factor to the team's performance was the fact that the season was delayed because of bad weather. The first couple of games were cancelled and the season really didn't start until spring break. Late night practices took place in the gyms and out on the parking lot instead of on the field. Once playing finally began, the Buffs were led by shotstop Chris Decolati, and Chris Pederson, one of the top hitters in the league.

The Smoky Hill Girls Softball Team is more than just a club. It is a sport that demands hard work, patience, and most of all, the desire to win. Although the sport is not considered a varsity sport because it is not sanctioned by the Centennial League, it still holds a tradition of winning. Since its beginning, girls' softball has won state five times, took third once, and last year, along with winning the league with a 12-0 record, took second.

This year, Coach Rich Benson had high hopes for the team. The team's main goal was to win the league again and with all-state players returning from last year, the goal was within reach. The teams' strong points were their hitting and pitching. Also, the team didn't have any seniors and therefore, next year, they willl be just as strong.

STRIKE . . . Pam Parnell decides to take the pitch while catcher Cindy Quincy waits for it (top, left).
FORM . . . Chris Earnest starts her windup.

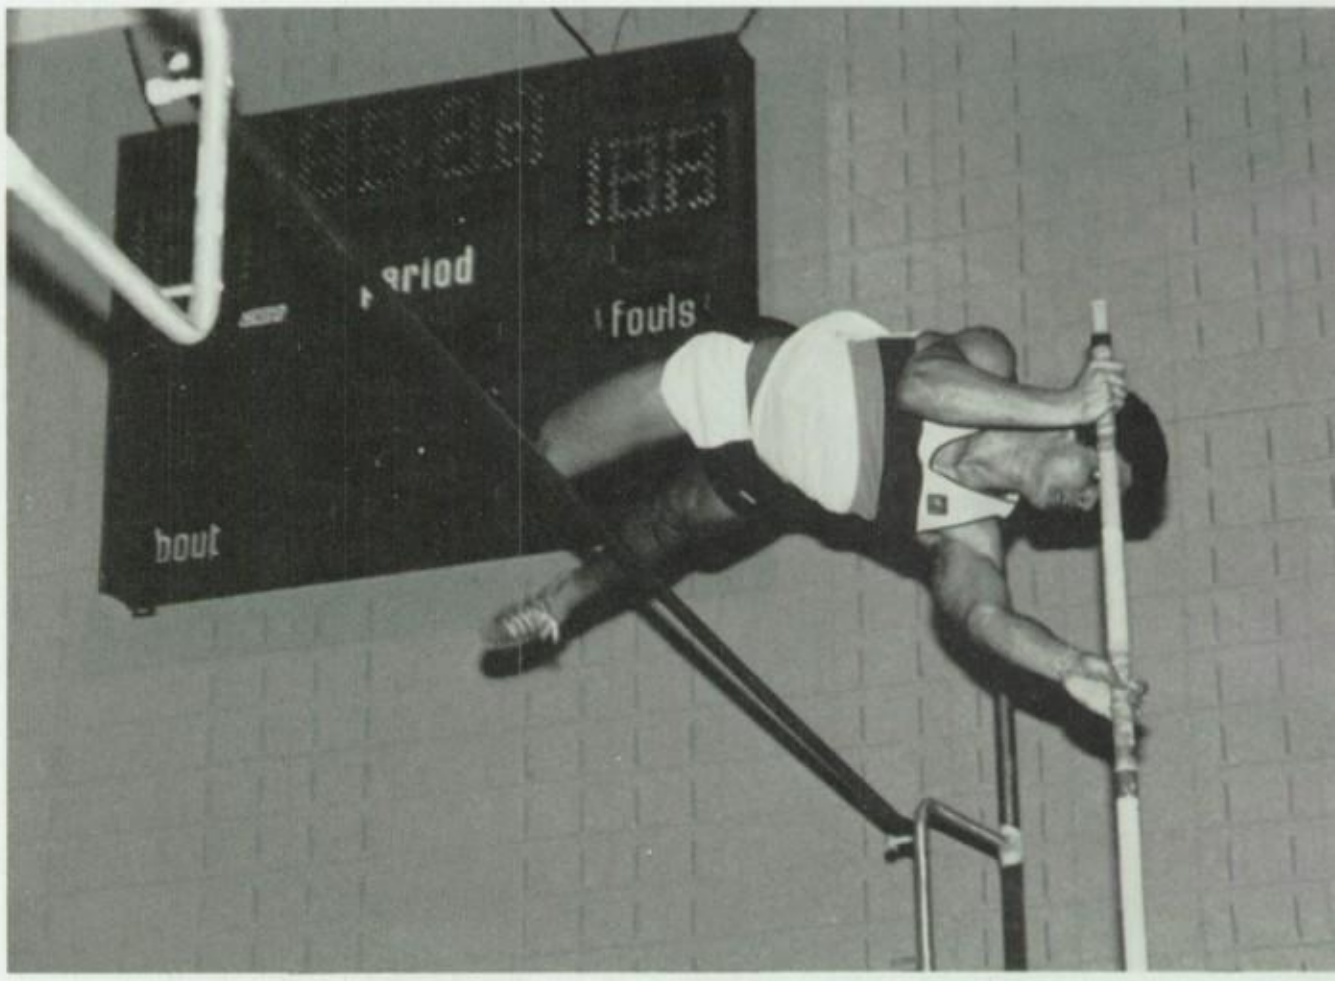
Row Three: Coach Lori Mineo, Cindy Quincy, Jana Pier, Teresa Dozier, Coach Rich Benson. Missing: Lori Smith, Kim Kokoska, Beth Ahl, Carrie Jonson, Danette DeLeon.

A Day at the Races

One of Smoky Hill's traditions has always been having an outstanding track team. This year was no exception. We had many experienced sprinters: Phil Jacobsen and Phil Richards, both seniors; Daryl Johnson, Ken Stokes, Brian Britton, all juniors. The team hoped to do well in state in the mile relay and the 800 relay with these six sprinters. Darryl Johnson was predicted to do well in the 100 meter and the 200 meter dashes. Likewise, Phil Jacobsen and Phil Richards were supposed to do well in the 440. Kyle Pigford was hopeful for the polevault, but his knee problems might keep him back. This year the team was helped by a new jumping coach, Mr. French. The distance team is led by Jim McPhilomy and Craig Martin. Jim McPhilomy placed 53rd at the AAU national meet and should do well in the two mile, the one mile, and the half mile.



STRIDE . . . Phil Richards, Phil Jacobsen, and Ken Stokes show their competition in practice.

PATIENCE . . . Coach Kettlehut pushes Daryl Johnson in practice.
BALANCE . . . Mike Nelson makes a successful polevault.

BRRRR! . . . Stephanie Freng leads the pack.

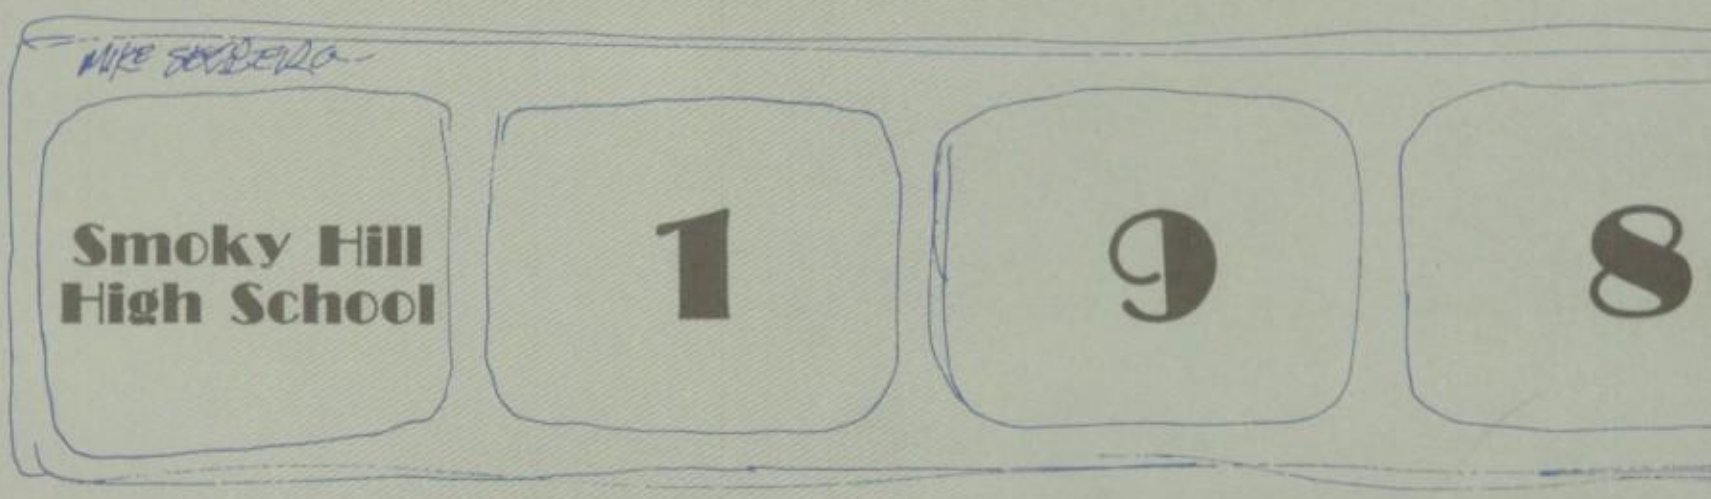
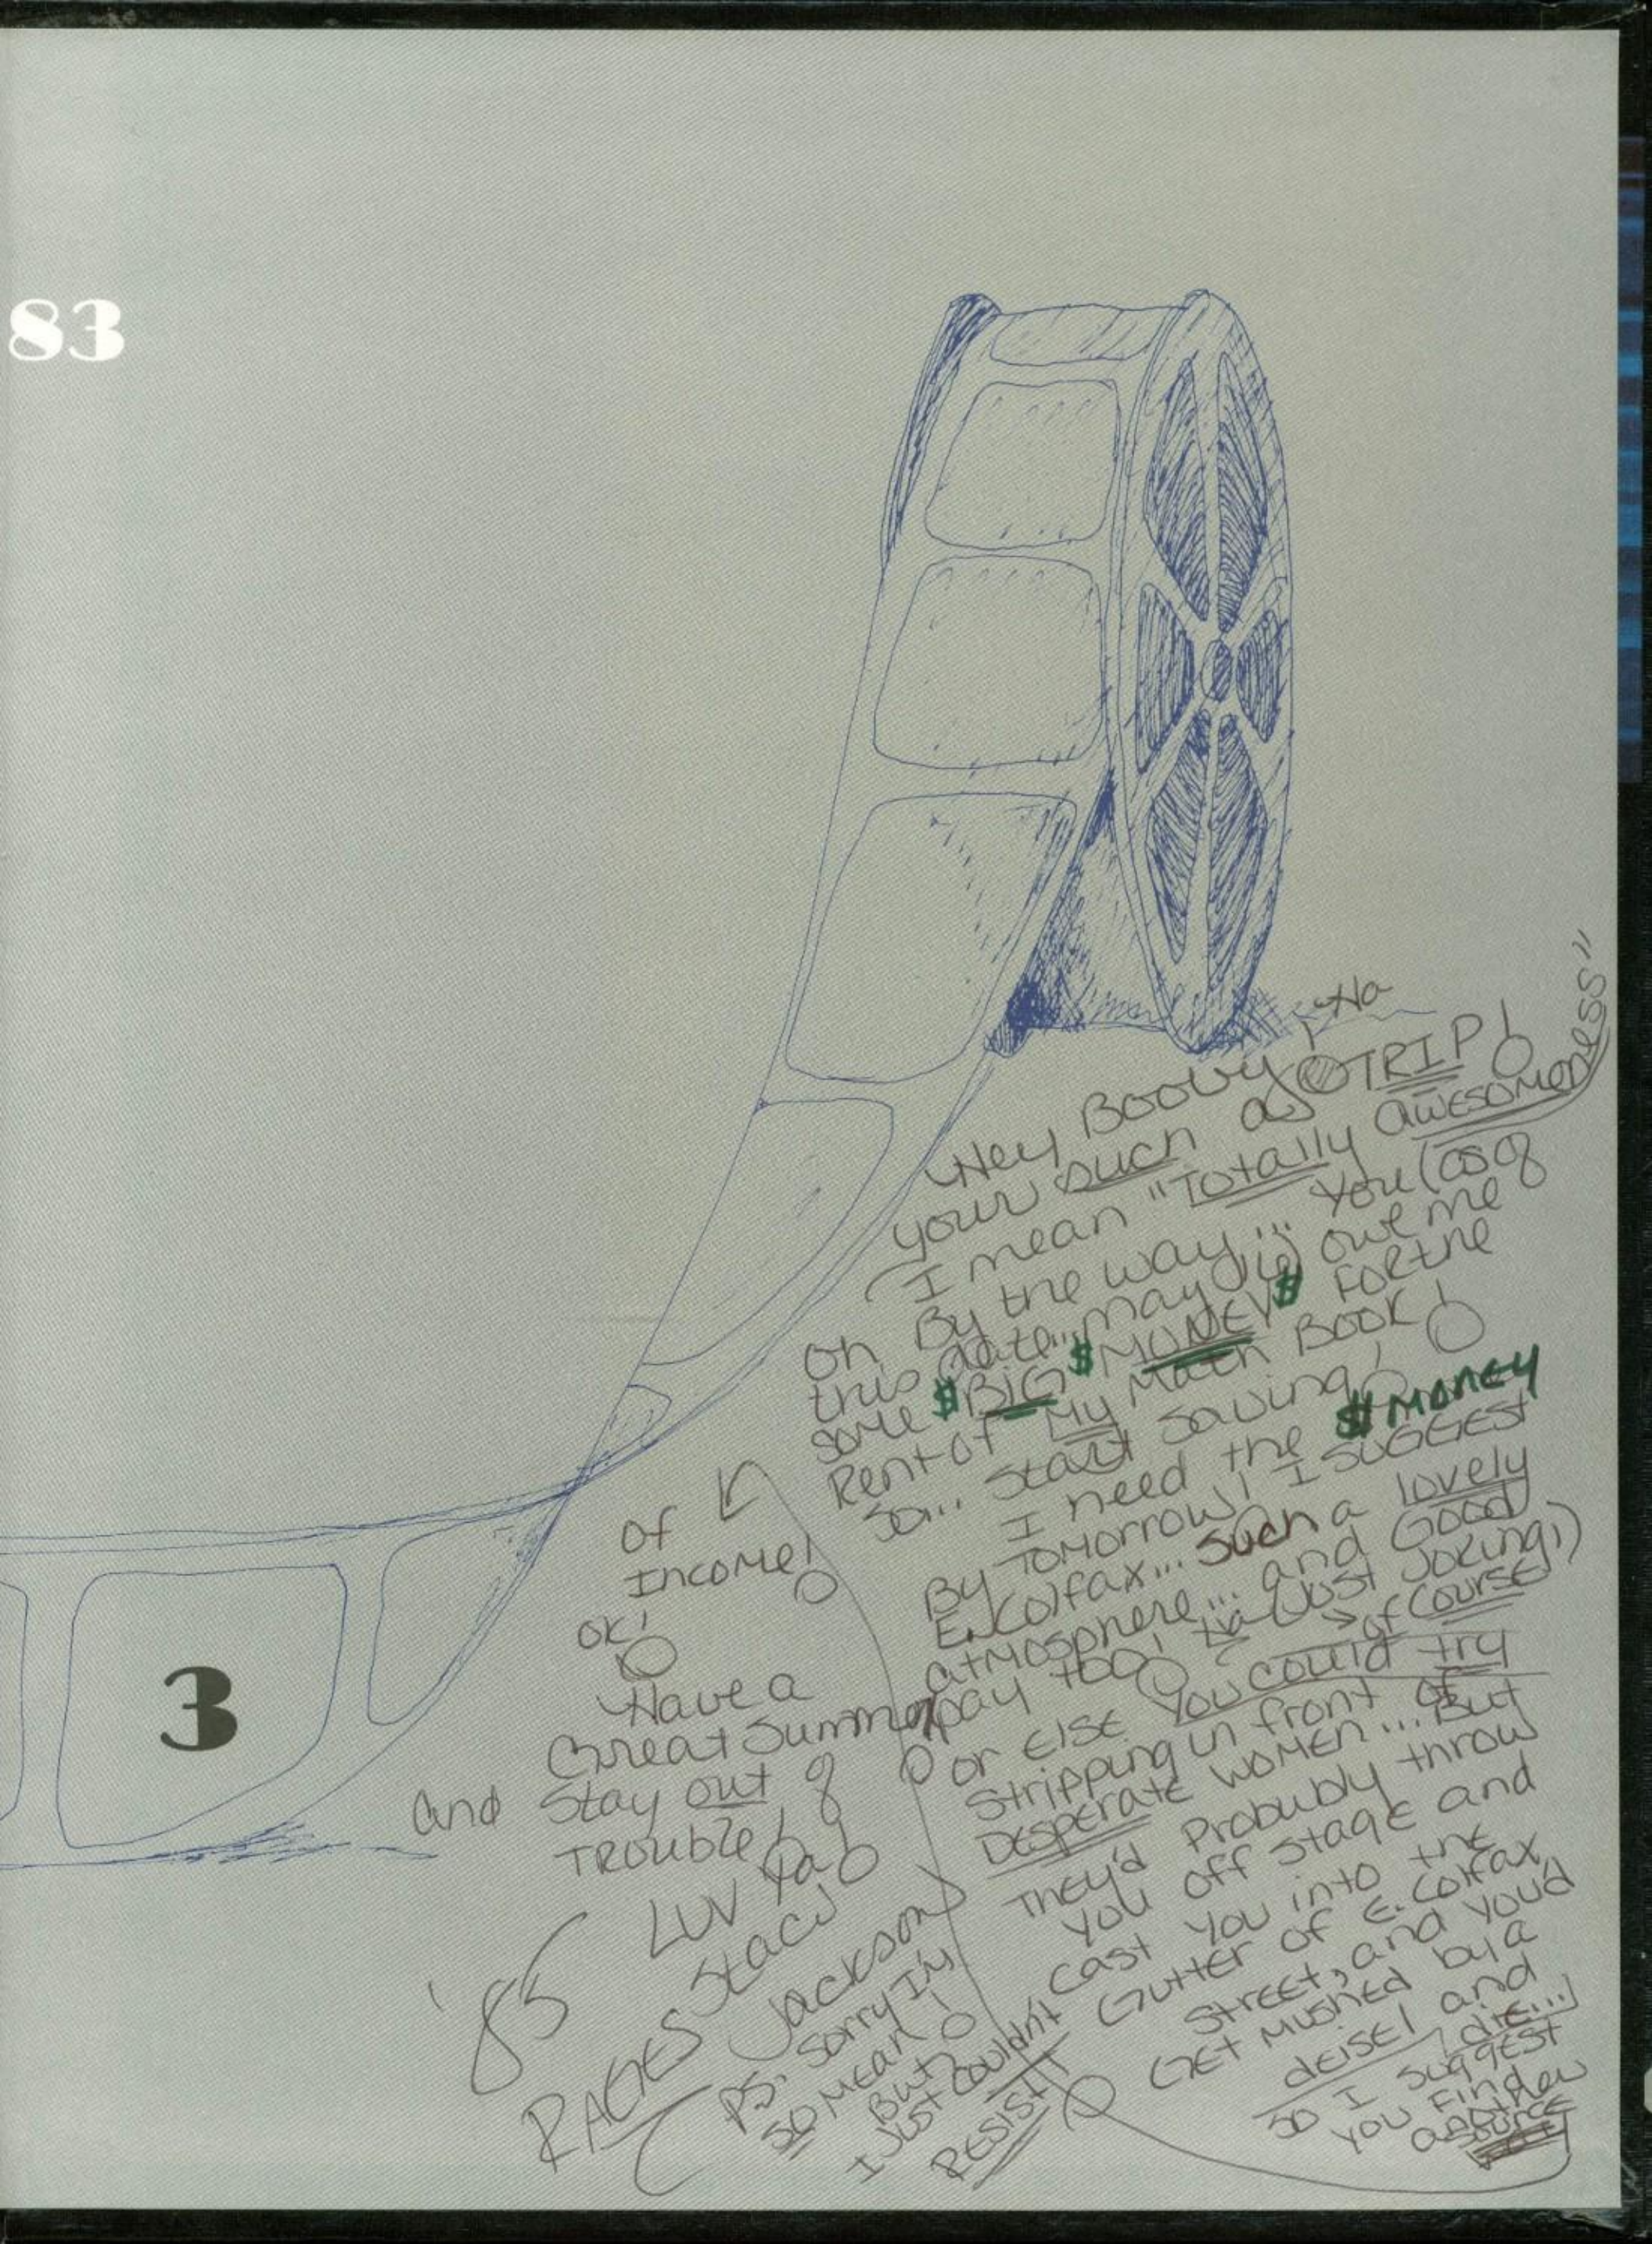
The Making of a Classic 1982





Hey Booby
your such a
I mean "Totally awesome"
Oh By the way... You (as a
this date) may (if) owe me
some $BIG $MONEY$ for the
Rent of My Moon Book!
So... start saving!
I need the $MONEY
By Tomorrow! I SUGGEST
E. Colfax... such a lovely
atmosphere... and (Good
pay too! I'm just Joking!)
Or else You could try
Stripping in front of
Desperate women... But
They'd Probably throw
you off stage and
cast you into the
Gutter of E. Colfax,
Street, and you'd
Get mushed by a
deisel and
die...
So I suggest
You find
another
source
of
Income!
OK!
Have a
Great Summer
And Stay out
TROUBLE!
LUV ya
Stacy
PS. Sorry I'm
so mean!
But
I just couldn't
RESIST!!
